Notice of Maintenance Fees Payable

Title 37, Code of Federal Regulations, Section 1.362(d), effective Nov. 1, 1984, provides that maintenance fees may be paid without surcharge for a six-month period beginning 3, 7, and 11 years after the date of issue of patents based on applications filed on or after Dec. 12, 1980. An additional six-month grace period is provided by 35 U.S.C. 41(b) and 37 CFR 1.362(e) for payment of the maintenance fee with the surcharge set forth in 37 CFR 1.20(k) or (l), as amended effective Oct. 5, 1985. If the maintenance fee is not paid in a patent requiring such payment the patent will expire on the 4th, 8th or 12th anniversary of the grant.

Attention is drawn to the patents which were issued on January 28, 1986 for which maintenance fees due at 3 years and six months may now be paid. The patents have patent numbers within the following ranges:

Utility Patents 4,566,136 through 4,567,610
Reissue Patents based on the above identified patents.

Attention is drawn to the patents which were issued on January 26, 1982 for which maintenance fees due at 7 years and six months may now be paid. The patents have patent numbers within the following ranges:

Utility Patents 4,312,076 through 4,313,228
Reissue Patents based on the above identified patents.

No maintenance fees are required for design or plant patents.

Payments of maintenance fees in patents should be directed to "Commissioner of Patents and Trademarks, Box M. Fee, Washington, D.C. 20231."

The current amounts of the maintenance fees due at 3 years and six months are set forth in 37 CFR 1.20(e) and (h), as amended effective Oct. 5, 1985, which are reproduced below:

37 CFR §1.20 Post-issuance fees

"(e) For maintaining an original or reissue patent, except a design or plant patent, based on an application filed on or after Dec. 12, 1980 and before Aug. 27, 1982, in force beyond 4 years; the fee is due by three years and six months after the original grant . . . $ 225.00"

"(h) For maintaining an original or reissue patent, except a design or plant patent, based on an application filed on or after Aug. 27, 1982, in force beyond 4 years; the fee is due by three years and six months after the original grant:

By a small entity (§1.9(f)) . . . . . $ 225.00
By other than a small entity . . . . . $ 450.00"

The amounts of the surcharges as amended effective Oct. 5, 1985, are set forth in 37 CFR 1.20 (k) and (l) which are reproduced below:

"(k) Surcharge for paying a maintenance fee during the 6-month grace period following the expiration of three years and six months, seven years and six months, and eleven years and six months after the date of the original grant of a patent based on an application filed on or after Dec. 12, 1980 and before Aug. 27, 1982 . . . . . $ 110.00"

"(l) Surcharge for paying a maintenance fee during the 6-month grace period following the expiration of three years and six months, seven years and six months, and eleven years and six months after the date of the original grant of a patent based on an application filed on or after Aug. 27, 1982:

By a small entity (§1.9(f)) . . . . . $ 55.00
By other than a small entity . . . . . $ 110.00"

Section 1.20 paragraph (m) as amended as a result of enactment of Public Law 98-622 effective Nov. 8, 1984, is reproduced below:

"(m) Surcharge for accepting a maintenance fee after expiration of a patent for non-timely payment of a maintenance fee where the delay in payment is shown to the satisfaction of the Commissioner to have been unavoidable . . . . . $ 500.00"

Notice of Expiration of Patents Due to Failure to Pay Maintenance Fees

35 U.S.C. 41 and 37 CFR 1.362(g) provide that if the required maintenance fee and any applicable surcharge are not paid in a patent requiring such payment, the patent will expire at the end of the 4th, 8th, or 12th anniversary of the grant of the patent depending on the first maintenance fee which was not paid.

According to the records of the Office, the patents listed below have expired due to failure to pay the required maintenance fee and any applicable surcharge.

Closing of the Patent and Trademark Office on Friday, Jan. 20, 1989

In view of the fact that Federal and District of Columbia government offices in the Washington, D.C. metropolitan area, including the Patent and Trademark Office, were officially closed on Jan. 20, 1989, the Patent and Trademark Office will consider Jan. 20, 1989, a "holiday within the District of Columbia" under 35 U.S.C. §21. Any action or fee due that day will be considered as timely for the purposes of e.g., 35 U.S.C. §§119, 133 and 151, if the action is taken, or fee paid, on Jan. 23, 1989. Papers deposited in U.S. Department of Commerce District Offices on Jan. 20, 1989, will similarly be considered timely for the purposes of 35 U.S.C. §§119, 133 and 151.

Jan. 6, 1989

DONALD J. QUIGG,
Assistant Secretary and Commissioner of Patents and Trademarks.

SERVICE STATISTICS

- *Assignment Backlog Improvement* — The trademark assignment backlog has been reduced from an average of 61 days to 48 days. The backlog for the last week covered by this report was reduced to 36 days. Information on trademark assignments is available to the public in the Assignment Search Room through Nov. 30, 1988. All documents from Sept. 1988 have been returned to senders. Oct. 1988 documents are ready to be released on Jan. 3, 1989.

  The backlog in patent assignments has been reduced by 27 days. The majority of patent assignments which were filed with new applications have a backlog dating from Aug. 1988, when the new application was filed. These assignments could not be processed until the new applications were processed through preliminary examination. Assignments other than those received with new applications date from Sept. 1988.

  We have instituted mandatory overtime for stall for the month of Jan. in order to eliminate our backlog in both trademark and patent assignments as soon as possible.

  We continue to investigate problems and study ways to report information. We ask that any problems and/or corrections to assignment records be brought to our attention.

IMPROVEMENTS TO SERVICES

- *Drawing Review Study Team* — Several comments were received in response to the OG notice published on Oct. 25, 1988. In addition, the Drawing Review Study Team is conducting its own telephone survey of practitioners and examiners for more information. The team will analyze the comments, formulate feasible alternatives, and present recommendations to PTO management in the next month.

- *Return Postcards* — Application serial numbers which include both series code and serial number are now being stamped on return postcards which are proviced with new patent applications. In the past, only the serial number was provided.

HELPFUL HINTS

- *Assignments*

Assistance — Customers are encouraged to call the Assignment Branch Quality Control Status Section (703-557-8691) with questions regarding procedure, fees or status of assignments.

Foreign Assignees — When filing an assignment with a foreign assignee, an appointment of domestic representation is required. If more than one property is included in the assignment, a separate appointment of domestic representative is required for each property. You need only submit one original appointment. Photocopies of the appointment of domestic representative may be filed for the additional properties.

Submission of Assignment Documents — Only an original document or a certified copy of a document is acceptable for recordation. When signing an original document, ink other than black should be used so that the signature can clearly be identified as an original one.

Do not file extra copies of assignment documents. They may be mistaken as documents intended for recordation.

Be sure to attach a transmittal letter including the firm's name and address on each assignment document to ensure accurate return of the assignment document. Use extra staples to ensure the transmittal letter does not become detached. As a further safeguard, include a return address on the assignment document.

Do check the assignment document to make sure that the name of the assignor and assignee are consistent throughout the document.

- *Certificate of Mailing - Separate Certificate for Each Document* — Practitioners and others are reminded of the requirement of MPEP 512(D) which states: "In situations wherein the correspondence includes papers for more than one application (e.g., a single envelope containing separate papers responding to Office actions in different applications) or papers for various parts of the Office (e.g., a patent issue fee transmittal form PTO-85 and an assignment), each paper must have its own certification as a part thereof or attached thereto." Although form PTOL-85b, Issue Fee Transmittal, may contain a Certificate of Mailing thereon, a separate Certificate of Mailing is required for all papers included with this form, including formal drawings, since papers are separated and flow to different areas of the Office. Checks submitted with papers do not require a Certificate of Mailing.

- *Correspondence Concerning a Patent Application* — Under revised 37 CFR 1.5(a), effective Jan. 1, 1989, when a document concerns a previously filed application for a patent, it must identify on the top page in a conspicuous location, either the application number (consisting of the series code and the serial number, e.g., 07/123,456), or the serial number and filing date assigned to that application by the Patent and Trademark Office, or the international application number of the international application. No papers related to a new patent application should be filed in the Office prior to receipt of this information. Any papers filed without this required information will not be processed, but will be returned to sender if a return address is available.

- *Docket Numbers on Filing Receipts for Patent Applications* — Docket numbers must be limited to a maximum of 12 characters to prevent truncation. The Patent Application Location and Monitoring (PALM) system data base allows a maximum of 12 characters for the attorney's docket numbers. Spaces, slashes and hyphens will no longer be included in the entered docket number on the official filing receipt. In an application where CASE or NAVY-CASE appears before the first character in the docket number, only the characters after CASE or NAVY-CASE will be entered on the official filing receipt.

- *Responses Filed for International Applications* — The 18 month publication deadline for international applications filed under the Patent Cooperation Treaty (PCT) is critical. Therefore, it is in applicant's interest to respond timely to an invitation to correct a PCT Article 14 defect. An untimely response can result in the withdrawal of the international application under Article 14 and PCT Rule 26. If an extension to respond is needed, call the person who signed the invitation before the expiration of the time limit. The PTO will strictly comply with PCT Article 14 and Rule 26 in holding international applications withdrawn when responses are untimely or not filed.

- *Consolidated Helpful Hints* — Below is an updated compilation of all Helpful Hints published to date.

THERESA A. BRELSFORD,
Assistant Commissioner
for Administration.

1. APPEALS

a. *Appeal Fees in Patent Cases*

Appeal fees deficiencies are frequent, causing necessity for extension fees to cover the additional time consumed in making up the appeal fee deficiency. Ensuring proper payment at time of filing the appeal will save money and time.

b. *Notices of Appeal to the United States Court of Appeals for the Federal Circuit*

Notices of appeal to the United States Court of Appeals for the Federal Circuit should be sent to the Solicitor at the address below:

Solicitor
Box 8
U.S. Patent and Trademark Office
Washington, D.C. 20231

Improperly addressing such communications, e.g. to the examining groups, may delay delivery to the Solicitor.

2. APPLICATION FILES

a. *Requests for Allowed Patent Application Files*

Applicants or attorneys requesting files from the Publishing Division, Office of Publications, should make their request at least twenty-four hours in advance to ensure file availability. Attention is especially directed to out-of-town requesters who visit the Office, anticipating same day service. Although the Office is usually able to respond promptly, unexpected inconvenience can be avoided if arrangements are made in advance.

Inquiries and requests should be directed to the Correspondence Section at (703) 557-6397 or (703) 557-6398 between the hours of 8:30 a.m. through 5:00 p.m. on weekdays.

b. *Returning Files to the File Information Unit (FIU)*

Customers are reminded that file histories obtained through the FIU are official government records which must not be removed from the confines of the Patent Search Room at any time. Such files must be returned to the File Information Unit by 7:45 p.m. on the same day they are obtained.

FIU personnel will continue to periodically monitor this problem. Should individual patterns of abuse be discerned, administrative sanctions up to termination of access privileges may be applied.

3. APPLICATION PAPERS

a. *Disclosure Statements*

If a disclosure statement is to be filed before an Office action, file it when the application is filed. Some Group Art Units have greatly reduced the pendency to first action. Hence, many examiners are taking up new applications before an information statement is matched with the application.

b. *Docket Numbers - Placement*

If use of a docket number is desired, the docket number should be placed in the upper right corner of the transmittal letter accompanying newly filed patent applications. This will eliminate a time consuming search of the application papers for the docket number or the likelihood of it being overlooked during processing.

c. *Papers Related to Patent Applications*

When a document concerns a previously filed application for a patent, it *must* identify on the top page in a conspicuous location, either the application number (consisting of the series code and the serial number, e.g. 07/123,456), or the serial number and filing date assigned to that application by the Patent and Trademark Office, or the international application number of the international application. *No papers related to a new patent application should be filed in the Office prior to receipt of this information.* [37 CFR 1.5(a)] Any papers received without this information will not be processed.

Additionally, the word "Patent" should be in the upper right hand corner and the filing date, inventor's names and title of the invention should be included on the paper.

Responses to Notices of Incomplete Application and Notices to File Missing Parts must be accompanied by a copy of the Notice form.

d. *Papers Related to Trademark Applications*

For all papers related to *trademark* applications, the word "Trademark" and the series code/serial number should be placed in the upper right-hand corner of the document. Also, please set forth the applicant's name, filing date, law office, examining attorney, and mark.

e. *Papers With No Particular Time Requirment*

Patent and trademark documents which have no particular time or sequence requirements should be filed with materials submitted in response to the statutory or regulatory requirements. Examples are certified copies of foreign documents to support priority in patent applications, changes of Power of Attorney, or changes in Mailing Address following first action.

f. *Residence of Applicant*

The residence of applicant should be indicated as city and state for United States residents and city and country for residents of foregin countries.

g. *Response to Final Rejection In Patent Applications - Expediting Processing*

See section under Mail.

h. *Separation of Various Application Papers*

In *patent* applications, requests for extensions of time, changes of address, proposed drawing corrections, and petitions are sometimes incorporated in the remarks section or at the beginning of papers entitled "Amendment" or "Response." In *trademark* applications, change of address and power of attorney are sometimes incorporated in the remarks section or at the beginning of papers entitled "Amendment" or "Response." Please present such items in separate papers, appropriately titled, since they are all handled by different personnel [37 CFR 1.4(c)].

i. *Supplemental or Preliminary Amendments*

Where a supplemental or preliminary amendment is found necessary in patent or trademark applications, please telephone the examiner and request that the examiner delay action for a certain time in order to avoid crossing in the mails of the amendment and the Office action.

j. *Transmittal Letters for Deposit Account Charges*

When statutory fees are to be charged to a deposit account, the processing of the application can be facilitated by submitting the applicant's transmittal letter or other correspondence specifying the account to be charged in triplicate. Submission of these documents in triplicate will eliminate the need for the Mail Room to photocopy the document and will thereby reduce the processing time of incoming mail.

4. ASSIGNMENTS

a. *Assistance*

Customers are encouraged to call the Assignment Branch Quality Control Status Section (703-557-8691) with questions regarding procedure, fees or status of assignments.

b. *Delays in Assignments for New Patent Applications*

The automated patent assignment system is dependent upon bibliographic information that is keyboarded to produce filing receipts and to create records in the PALM system. When assignments are filed before the filling receipt has been produced, their processing is delayed until the bibliographic information is keyed and verified.

c. *Expediting Corrections or Updates*

When requesting correction or updating of a previously recorded patent or trademark assignment document, providing the reel and frame number of that document to the Assignment Branch will greatly expedite the recording process.

d. *Foreign Assignees*

When filing an assignment with a foreign assignee, an appointment of domestic representative is required. If more than one property is included in the assignment, a separate appointment of domestic representative is required for each property. You need only submit one original appointment. Photocopies of the appointment of domestic representative may be filed for the additional properties.

e. *Routing of Assignment Documents*

Many individuals are submitting assignment documents and requests for assignment services, together with application prosecution papers, directly to the examiner. Often, these requests get placed in the file and are not forwarded to the assignment area for handling. Please send all assignment documents and request through the Mail Room in order that they may be properly routed to the assignment area

Please separate requests for certified copies of assignments from requests for other services including requests for certified copies of other documents. Certification of assignment documents is not performed by the same individuals as certification of other documents.

f. *Submission of Assignment Documents*

Only an original document or a certified copy of a document is acceptable for recordation. When signing an original document, ink other than black should be used so that the signature can clearly be identified as an original one.

Do not file extra copies of assignment documents. They may be mistaken as documents intended for recordation.

Be sure to attach a transmittal letter including the firm's name and address on each assignment document to ensure accurate return of the assignment document. Use extra staples to ensure the transmittal letter does not become detached. As a further safeguard, include a return address on the assignment document.

Do check the assignment document to make sure that the name of the assignor and assignee are consistent throughout the document.

g. *Trademark Registrations - Ensuring Correct Printing*

To ensure the correct printing of ownership information on a Trademark Registration at issue date, provide the trademark examining attorney with the reel and frame number of the appropriate assignment document as soon as you are notified of it.

5. CERTIFICATES OF CORRECTION

a. *Accurate Requests*

Many requests for "Certificate of Correction" result from a prefunctory comparison of the issued patent with the attorney's application file, without investigating whether the recitation in the issued patent is correct. In many instances, change to the PTO file wrapper has been caused by the examiner prior to printing of the patent in order to make appropriate corrections to the file.

6. CERTIFICATION SERVICES

a. *Expedited Service for Patent Applications-As-Filed*

If there is a need for special service, for example to meet a priority date within a short period of time, the order must be marked "RUSH" with the date/time needed and reason for the need. The order should be hand-delivered to the Manager, Assignment and Certification Division, CP2-7D13. Orders may also be mailed to the Commissioner of Patents and Trademarks, Washington, D.C. 20231, clearly marked to the attention of the Manager, Certification Branch. However, because mail orders must be initially handled by the Mail Room, requesters are cautioned that turnaround time will be several days longer than for hand-delivered orders. Every effort will be made to fill all "RUSH" orders timely, to the extent resources are available.

b. *Methods of Ordering*

Mail Orders - The address for mail orders is:

Box 10
Commissioner of Patents and Trademarks
Washington, D.C. 20231

Hand-carried Orders - Hand-carried requests for certification service should be taken to the Public Service Window in the North Stacks of the Patent Search Room where they can be placed in the Certification Order Receipt Box or given to the attendant. For security reasons, the public is not permitted access to the Certification Branch itself.

c. *Processing Time*

The current goal for furnishing certified copies of applications-as-filed is 17 days from receipt in the Mail Room of the Patent and Trademark Office to mailing of the completed order by the Certification Branch. The 17 days includes 4 work days for Mail Room and Finance processing, 9 work days in the Certification Branch and 4 weekend days that accure over the 13 work days.

The 17-day goal applied to those orders for which microfiche of applications-as-filed are available in the Certification Branch. The microfiche for a small percentage of the total orders for certified copies of applications-as-filed must be retrieved from a remote location, or be replaced due to damage or correction. The 17-day goal does not apply to these orders.

d. *PTO vs. Public-Supplied Copies for Certification*

Requests for all certified copies of applications-as-filed and file wrapper/contents of pending patent and trademark applications will be filled with PTO supplied copies of original source documents. No public supplied copies will be accepted.

The public may submit copies of Registered Trademarks, Registered Trademark Files, Patented Files, and Patents for certification by the Certification Branch.

e. *Questions Frequently Asked*

Q. What does "certified" means?
A. Authentication of copies by ribbon and seal of the PTO with the signature of an officer authorized by the Commissioner of Patent and Trademarks.

Q. What does an application consist of?
A. (1) Written Description (2) Claims (3) Oath or Declaration (4) Drawings, when necessary, and (5) Filing Fee.

Q. What does a file wrapper and contents (file history) consist of?
A. The original application papers plus all correspondence between the applicant/attorney of record/assignee and the PTO.

Q. Why are certified copies of applications-as-filed required?
A. Since the rights granted by a U.S. patent extend only throughout the territory of the U.S. and have no effect in a foreign country, an inventor who wishes patent protection in other countries must submit a certified copy of his or her U.S. application when applying for a patent in that country in order to receive the benefit of the U.S. filing date.

Q. What regulations govern the filing of an U.S. application in a foreign country?
A. There is a treaty relating to patents which involves 97 countries and is known as the Paris Convention for the Protection of Industrial Property. It provides that each country guarantees to the citizens of other countries the same patent rights that it gives to its own citizens.

Q. Can anyone request a copy of a pending application?
A. No. Pending applications are preserved in secrecy. No information or copies may be obtained without written authority of the applicant, attorney of record, or the assignee, if any. Such written consent must accompany the request for copies.

Q. Can orders for copies by placed by phone?
A. No. All orders must be in writing.

Q. May office copies of my application be sent to the PTO for certification?
A. No. We do not certify copies prepared outside the PTO.

Q. Will the PTO mail certified copies ordered directly to a foreign country?
A. No. With respect to the exportation of technical data, the PTO discontinued the practice of forwarding direct to any foreign country certified copies of U.S. applications ordered by residents of the United States.

Q. Are cited references in a file automatically furnished when a file wrapper and contents is requested?
A. No. Cited references are not included as papers comprising the file history. References cited are furnished only if specifically requested.

Q. Can cited references, when requested, be certified with the file wrapper and contents under one certificate?
A. No. Each reference must be certified separately.

Q. Are there instances when references are included in a file wrapper and contents?
A. Yes. If the references are submitted as attacments to a response from the applicant and if such response is entered and made a part of the file.

Q. Exclusive of applications-as-filed and file wrappers and contents of patented files, what other types of copies may be obtained from the Certification Branch?
A. The following items may be obtained:

a. Certified copies of issued U.S. patents.
b. Certified copies of foreign patents.
c. Certified copies of publications from the Scientific Library.
d. Certified copies of Office letters.
e. Certified duplicate filing receipts.
f. Certified copies of an assignment and application-as-filed, under one certificate.
g. Copies of disclosure documents.
h. Copies of the following files:

- Defensive publication files.
- Reexamination files.
- Interference files.
- Trademark files.
- Opposition files.
- Concurrent use proceedings files.
- Statutory Invention Request.
- Certified copies of assignment documents.
- Abstract of title.

f. *Status Requests or Problems*

For status inquiries, call the Input and Records Control Unit of the Certification Branch at 557-1587. For problem situations call the Manager of the Certification Branch, at 557-1552.

7. DRAWINGS FOR PATENT APPLICATIONS

a. *Proper Identification of Formal or Substitute Drawings*

When the Office receives formal or substitute drawings, a cover letter identifying the application by serial number should accompany them. It is extremely difficult to associate the drawings with the files when this information is missing. The application serial number should be placed on the sheet of drawing in accordance with 37 CFR 1.84(1).

According to 37 CFR 1.84(1), identifying indicia (such as the attorney's docket number, inventor's name, number of sheets, etc.) not to exceed 2½ inches may be placed in a centered location between the side edges within three-fourths inch of the top edge. Either this marking technique on the front of the drawing or the placement of this information on the back of the drawing is acceptable. However, for identification of the serial number, the PTO prefers that it be placed on the front.

b. *Proper Identification of New Application Drawings*

During pre-examination processing, drawings are temporarily separated from the rest of the application papers. To facilitate the matching of drawings with the application, it would be helpful if the applicant's name, docket number, and the title of the invention were put on the back of the drawings. This may be done by writing lightly on the drawings or by using gum labels.

c. *Submission of Copies of Drawings*

DO NOT SUBMIT ORIGINAL DRAWINGS WITH PATENT APPLICATIONS. DO SUBMIT A HIGH QUALITY COPY. If the copy submitted passes the formality review and patent examination, no substitute drawings will be necessary. If corrections are necessary, they should be made to the original drawings. Either one good copy of the corrected drawings or the corrected original can then be submitted after the Notice of Allowability is mailed.

The PTO will not release drawings from patent applications filed after Jan. 1, 1989, to applicants, bonded drafting companies, or others.

d. *Timeliness of Submission of Corrected Drawings in Allowed Cases*

When drawings need to be corrected in an allowed patent application, the applicant is *required* to submit *acceptable* corrected drawings within a three-month shortened statutory period. Within that three-month period, two weeks should be allowed for review of the correction by the Office. If a correction is determined to be unacceptable by the Office, the applicant must arrange to have an acceptable correction re-submitted within the original three-month period to avoid the necessity of obtaining an extension of time and of paying the extension fee. Therefore, the applicant should file corrected drawings as soon as possible following the setting of the three-month shortened statutory period.

Corrected drawings, as well as the issue fee should be addressed to Box Issue Fee. Note that any assignment document should be submitted in a separate envelope, addressed to Box Assignment.

Each piece of correspondence should carry its own certificate of mailing. For example, drawings should have a certificate of mailing and the issue fee should have a certificate of mailing.

8. EXTENSIONS OF TIME IN PATENT CASES

a. *Appropriateness*

After a final rejection, where applicants' approval is not needed to amend the claims, no extension of time is required. However, if applicants' approval is required and applicants did not file their response within two months of the Final Rejection, the appropriate extension of time must be purchased.

Also, it should be noted that extensions of time may be requested under 37 CFR 1.136(a) for extending the time required to pay for the request for an oral hearing before the Board of Patent Appeals and Interferences. [MPEP §1209(1)]. The time for a request and fee for an oral hearing is one month from the date of the Examiner's Answer or any supplemental Examiner's Answer.

Extensions of time by fee payment under 37 CFR 1.136(a) are appropriate for filing of the Brief on Appeal in regular applications. No more than four months may be granted under 37 CFR 1.136(a). Beyond those four months, any further request must show sufficient cause under 37 CFR 1.136(b), and no additional extension fee is required.

An extension of time is not required in order to hold an interview with the examiner. However, after the period for response has ended, an extension is required for the purpose of filing a follow-up amendment by applicant and/or for the entry of an Examiner's Amendment requiring approval of the applicant.

Extensions of time are appropriate for the purpose of achieving continuity between parent and continuing applications. A separate paper requesting the extension of time must be filed in the *parent* application. It would be useful to file a *copy* of that request or petition with the papers constituting the filing of the continuing application.

b. *Extensions of Time Under 37 CFR 1.136(a)*

Under 35 U.S.C. 41(a) (8) and 37 CFR 1.136(a), a response filed within a statutory period but outside of the period set for response may be rendered timely if accompanied by (1) a petition for an extension of time and (2) the appropriate extension fee. Experience indicates that there have been differing opinions as to the language necessary to constitute an acceptable extension of time petition. This Helpful Hint is intended to clarify the policy of the Patent and Trademark Office concerning the language required for such a petition.

An extension of time under §1.136(a) requires a petition therefor and payment of the appropriate fee. The §1.136(a) petition should explicitly request in writing an extension of time for the specific number of months needed as explained in §710.02(e) of the Manual of Patent Examining Procedure. This is the best way to avoid mistakes by the applicant or by the Patent and Trademark Office and assure orderly and efficient processing of the petition.

The following language is an example of a preferred §1.136(a) request:

Applicant petitions the Commissioner of Patent and Trademarks to extend the time for response to the Office action dated _____ for _____ month(s) from _____ to _____.

[If paying by check:]

Submitted herewith is a check for _____ to cover the cost of the extension. (Optionally, add: Any deficiency or overpayment should be charged or credited to deposit account number _____ A duplicate copy of this sheet is enclosed.)

[If paying by charge to deposit account number:]

Please charge my deposit account number _____ in the amount of _____ to cover the cost of the extension. Any deficiency or overpayment should be charged or credited to this deposit account.

Applicants are cautioned that, in order to be timely, a response must be accompanied by a *specific* reference to an extension of time. A general authorization under 37 CFR 1.25(b) to charge necessary fees to a deposit account will not be interpreted as a petition for an extension of time. For example, a response accompanied by

the statement "Please charge any fees necessary under 37 CFR 1.17 to my deposit account" would not be acceptable, since the statement does not make *specific* reference to an extension of time.

As previously indicated, a proper §1.136(a) petition must be in writing. However, when an extension of time is necessary to make an Examiner's Amendment timely, the extension may be obtained by way of a verbal communication. The verbal communication must be transcribed as a written part of the official application file record. For example, during a telephone interview with an examiner, an attorney for the applicant, in order to render an Examiner's Amendment timely, may verbally request an extension of time under 37 CFR 1.136(a) and authorize a charge of the appropriate fee to his or her deposit account. If this verbal request and authorization are transcribed as a written part of the application file record (e.g., via the Examiner's Amendment or an Examiner Interview Summary Record, PTOL-413), the desired extension of time may be obtained. The filing date of the §1.136(a) petition and fee will be considered the date of the verbal request and authorization if this date is reflected in the written file record.

c. *Instances Not Permitted*

An extension of time under 37 CFR 1.136(a) is not permitted in the following instances:

(1) Where an applicant is so notified in an Office action as, for example, in a Reissue application involving a litigated patent.
(2) Where the application is involved in an interference declared pursuant to 37 CFR 1.611. See 37 CFR 1.645 for provisions governing extensions of time in interference proceedings.
(3) In reexamination proceedings. See 37 CFR 1.550(c) for extensions of time in reexamination proceedings.
(4) In PCT international applications. Under PCT Rule 26.2, extensions are permitted for correction of PCT Article 14 defects in international applications before the Receiving Office.

d. *Insufficient Fees*

Many requests for extension of time are being filed with insufficient fees. In those instances where there is no authorization to charge an account, additional fees are necessary to cover the additional time consumed in making up the original deficiency. If the maximum, six-month period has expired before the deficiency is noted and corrected, the application is held abandoned.

Please note that effective October 5, 1985, the extension fees in patent cases are as follows:

	Small Entity	Non-Small Entity
One Month Extension	$28	$56
Two Month Extension	85	170
Three Month Extension	195	390
Four Month Extension	305	610

If applicants have a deposit account, it is recommended that applicants file, in an individual application, a general authorization to charge any of the fees set forth in 37 CFR §§ 1.16 to 1.18 to a deposit account for the entire pendency of the application.

e. *Policy*

Where an extension of time is required to file a response in a timely manner, the response is not considered complete until the response, fee, and request or petition for an extension of time are received. The fee and request or petition must be filed before the expiration of the extended period requested. The fee cannot be paid outside the statutory six-month limit for the period of response.

f. *Requirement for Request or Petition for Extension*

Submission of the appropriate extension fee under 37 CFR 1.136(a) is to no avail unless a request or petition for extension is filed. Frequently, the request is omitted, which then requires an additional extension fee to cover the period to the date of the request. Occasionally, the application is held abandoned because the six month maximum statutory period has expired before detection of the omission of the request for extension. It is critical that a paper specifically requesting the extension be filed with late responses. It is also wise to use the Certificate of Mailing practice under 37 CFR 1.8 when requesting extensions.

g. *Response to Final Rejection - Avoiding Extension Fees*

In patent applications wherein a three month Shortened Statutory Period (SSP) is set for response to a Final Rejection, the response would best be filed within two months of the date of the Office Action. If filed within two months, any Advisory Action mailed after the SSP expires will reset the SSP to expire on the date of the Advisory Action for extension fee purposes, but never more than six months from the date of the Final Rejection.

h. *Supplemental Amendments*

If a timely and complete response has been filed after a *Non-Final* Office Action, an extension of time *is not required* to permit filing and/or entry of an additional amendment after expiration of the shortened statutory period.

If a timely response has been filed after a *Final* Office Action, an extension of time *is required* to permit filing and/or entry of a Notice of Appeal or filing and/or entry of an additional amendment after expiration of the shortened statutory period unless the timely-filed response placed the application in condition for allowance. Of course, if a Notice of Appeal has been filed within the shortened statutory period, the period has ceased to run.

9. FILES

a. *Official Searches*

The PTO has had an unusually large number of official search status letters returned by the Postal Service due to insufficient/incomplete addresses. When requesting an official search for a lost patent or trademark file, please ensure that all pertinent information is completely filled out on the PTO Form 1216. In the case of an individual working for a particular firm, the firm's name should be included in block number 5 of the form along with the name of the requester. If you have any questions in this matter please call the Chief, Support Services Branch on (703) 557-3360.

b. *Requests for Reconstruction*

To request the reconstruction of a file, submit a written request along with a notice from the PTO Official Search unit stating that the file cannot be located.

c. *Requests for Trademark Files*

To eliminate unnecessary delays when ordering Trademark files, requestors should complete all required information blocks on form PTO-1538 (Order and Charge for Trademark Files). Failure to properly complete the form is the primary reason for requests not being quickly processed. Submitting a completed form will reduce the number of requests that have to be returned and thus reduce the overall time required to fill the request.

10. FILING RECEIPTS FOR PATENT APPLICATIONS

a. *Docket Numbers*

Docket numbers must be limited to a maximum of 12 characters to prevent truncation. The Patent Application Location and Monitoring (PALM) system data base allows a maximum of 12 characters for the attorney's docket number. Spaces, slashes and hyphens will no longer be included in the entered docket number on the official filing receipt. In an application where CASE or NAVY-CASE appears before the first character in the docket number, only the characters after CASE or NAVY-CASE will be entered on the official filing receipt.

b. *License to Foreign File*

Each newly filed patent application is routinely reviewed for security interests during pre-examination processing. A code is entered into the data base to indicate the presence or absence of security interests. When no security interest are found, the filing receipt will be generated with the notation "Foreign license granted xx/xx/xx." There is no additional cost for this security screening and license notation.

c. *Residence of Applicant*

The residence of applicant should be indicated as city and state for United States residents and city and country for residents of foreign countries. The Patent Application Location and Monitoring (PALM) System data base allows a maximum of 15 characters for the city of residence. If the city name is longer than 15 characters, it will be truncated in the data base and appear in the shortened form on the filing receipt. However, the entire city name will be taken from the file and printed on any patent that issues.

Please do not call or write the Office for a corrected filing receipt should the printed city name be cut short due to the 15-character limit.

Often applicants who are residents of foreign countries indicate street address, sections of cities, provinces or other political divisions as part of their cities of residence. This leads to confusion and possible erroneous entries in the data base. Only the foreign city and country should be indicated as the applicant's residence.

11. INTERVIEWS WITH PATENT EXAMINERS

a. *Appropriateness*

Prior to filing, no interview is permitted; only search assistance may be given to the attorney, searcher or inventor.

Prior to first action, an interview is ordinarily granted only in continuing or substitute applications; a request for an interview is untimely and will not be granted prior to first action in all other applications.

After final rejection, an interview will not be denied merely because final Office action has been rendered. Normally, one interview after a final rejection is permitted if the examiner is convinced that disposal or clarification for appeal may be accomplished with only nominal further consideration. In requesting an interview after final rejection, the intended purpose and content of the interview must be presented briefly, either orally or in writing. Interviews merely to restate arguments of record or to discuss new limitations which would require more than nominal reconsideration or new search will be denied.

After a case is sent to issue, it is technically no longer under the jurisdiction of the primary examiner (37 CFR 1.312). Requests for interviews on cases already passed to issue should be granted only with specific approval of the Group Director upon a showing in writing of extraordinary circumstances.

The ideal time for personal interviews, during which time an interview is clearly available, is the "Conference Period", which is the time between the filing of applicant's thorough first reponse to the examiner's first action on the merits and a concluding action by the examiner.

In reexamination proceedings, an interview with the owner is permitted after first action. Requests that reexamination requestors be permitted to participate in or attend interviews will be denied.

When an interference has been declared, all questions involved are to be determined *inter partes* and will not be discussed *ex parte*.

Following the grant of a United States Patent, an examiner must refuse to express any opinion or view as to the validity of the patent, except on the record in the course of examining a reissue application or a reexamination proceeding. Even in the case of search assistance on an invention, if an examiner is aware that the invention has been patented in the United States, the searcher will be referred to the prosecution file history, and the examiner will make no comment on the appropriateness of the search conducted or the references cited.

Should any examiner fail to comply with the above guidelines, the matter would best be brought to the attention of the examiner's Group Director.

Direct questions to:

Al Lawrence Smith
Director, Group 350
(703) 557-3414

b. *Prohibitions*

No interview will be conducted with an attorney who is not registered or who has been suspended or excluded from practice regarding an application unless the attorney is the applicant in the application.

Protestors are not permitted to participate in interviews in applications where the protest was filed after Dec. 8, 1981, and the examiner will not communicate in any manner with such protestors.

12. MAIL

a. *Certificate of Mailing - Separate Certificate for Each Document*

Practitioners and other are reminded of the requirement of MPEP 512(D) which state: "In situations wherein the correspondence includes papers for more than one application (e.g., a single envelope containing separate papers responding to Office actions in different applications) or papers for various parts of the Office (e.g., a patent issue fee transmittal form PTO-85 and an assignment), each paper must have its own certification as a part thereof or attached thereto." Although form PTOL-85b, Issue Fee Transmittal, may contain a Certificate of Mailing thereon, a separate Certificate of Mailing is required for all papers included with this form, including formal drawings, since papers are separated and flow to different areas of the Office. Checks submitted with papers do not require a Certificate of Mailing.

b. *Certificate of Mailing AND Return Postcard*

Use of the Certificate of Mailing Procedure is strongly encouraged.

37 CFR 1.8(a) provides for the use of a Certificate of Mailing on most correspondence with the PTO, whereby the correspondence (and/or fee) will be considered as timely filed if deposited with the U.S. Postal Service within the set time period. Consistent use of this procedure is extremely beneficial to practitioners, whether or not the Postcard Receipt provision of MPEP 503 is used.

In those instances where the PTO never receives the correspondence, no postcard receipt will be available to evidence the filing and/or timeliness of the correspondence. However, in those instances where a Certificate of Mailing is properly used, 37 CFR 1.8(b) provides relief, even if the correspondence is *not* received in the PTO at all. Under 37 CFR 1.8(b) the party who forwarded the correspondence need only (1) inform the PTO of the previous mailing of the correspondence, (2) supply a copy of the previously mailed correspondence and Certificate, and (3) include a declaration which adequately attests to the previous timely mailing.

c. *Correspondence with Certificate of Mailing Delivered by Commercial Carrier*

The benefits of 37 CFR 1.8 or 1.10 apply only to documents delivered to the PTO by the U.S. Postal Service.

A number of instances have been uncovered where individuals are certifying that documents were deposited with the U.S. Postal Service when, in fact, the documents were hand-carried or delivered to the PTO via commercial mail service, e.g., "Federal Express," "DHL," "Purolator," "Air Borne," "UPS," etc. In those instances where documents include a certificate of mailing under 37 CFR 1.8 or 1.10, but were delivered to the PTO by other than the U.S. Postal Service, Mail Room personnel are placing a notice indicating that fact on the correspondence involved to alert PTO personnel that the benefits of 37 CFR 1.8 or 1.10 do not apply.

d. *Expediting Handling of Trademark Applications*

To facilitate processing of new trademark applications, place them in a separate envelope apart from all other mail. Identify on the outside of the envelope "TRADEMARK APPLICATION ONLY." More than one new trademark application may be placed in the same envelope. Do not place any papers in the envelope other than those related to the new trademark applications.

e. *Express Mail*

Due to a failure to follow proper procedures, many applicants are losing the advantage of receiving the date a paper or fee was deposited at the Post Office when "Express Mail" is used. According to 37 CFR §1.10, any such paper or fee must include a certificate of mailing by "Express Mail," signed by the person mailing the paper or fee.

To ensure papers and fees sent by "Express Mail" are accorded the proper certificate date, the following suggestions and reminders are offered:

(1) Each document must have a certificate of mailing typed on or affixed to the document. The certificate should be placed on the first page of the document or the covering letter to ensure easy accessibility.
Often, the certificate is missing, illegible, inaccurate, incomplete, or difficult to locate. As a result, the paper or fee is considered to have been filed on the date of receipt in the PTO.
(2) The certificate should be legible.
(3) The Express Mail number must be placed on the certificate.

(4) Dates on the certificate must correspond to dates on the Express Mail label.
The PTO continues to receive correspondence filed under the provisions of 37 CFR 1.10 in which the certificate of mailing by "Express Mail" certifies that the correspondence is being mailed on one date while the "Express Mail" label shows a "Date-In" on a different date. This usually occurs when the "Express Mail" package is deposited in a remote "Express Mail" receptacle or mailbox after the last pickup, and accordingly is not being picked-up and processed by the Postal Service until the next business day. The question as to the treatment of such a situation was covered in the final rule making published on Jan. 20, 1983, at 48 FR 2696–2714 and on Feb. 10, 1983, at 1027 O.G. 9. The following comments appear therein.
"Comment: One person questions what treatment will be accorded a paper placed in an 'Express Mail' box receptacle after the box has been cleared for the last time on a given day."
"Reply: The paper will be considered to be deposited as of the date of receipt indicated on the 'Express Mail' mailing label by the Postal Service clerk."
It is recommended that where the filing date of a paper or fee is critical, e.g., the filing of a patent application, and particularly when the deposit by "Express Mail" is being made late in the business day, the correspondence should be personally delivered to a Post Office. There the date of receipt of the "Express Mail" package can be immediately indicated by the Postal Service clerk.
(5) Each certificate must have an original signature of the person *actually mailing* the paper or fee; i.e., the person who actually deposits the paper or fee with the U.S. Postal Service.
The PTO has encountered instances in which the certificate of mailing by "Express Mail" was signed by an attorney and the deposit was made by the attorney's secretary or another member of the attorney's staff. This is improper under the provisions of 37 CFR 1.10. This section differs in that regard from 37 CFR 1.8.
(6) The preferred wording and information to be included on the certificate is as follows:

"Express Mail" Mailing Label No. (*insert B no. from Express Mail label*)
Date of Deposit (*insert date from Express Mail Label*)

I hereby certify that this paper or fee is being deposited with the United States Postal Service "Express Mail Post Office to Addressee" service under 37 CFR 1.10 on the date indicated above and is addressed to the Commissioner of Patents and Trademarks, Washington, D.C. 20231.

(*Typed or printed name of person mailing paper or fee*)
(*Signature of person mailing paper or fee*)

By following these procedures, problems concerning filing dates should be minimized.

f. *Reponse to Final Rejections In Patent Applications - Expediting Processing and Reply by PTO*

In order to ensure the quickest reply to an amendment or response after Final Rejection in patent applications, the paper must be marked in the upper right portion:

"RESPONSE UNDER 37 CFR 1.116
EXPEDITED PROCEDURE
EXAMINING GROUP (Insert Group Number)"

The marking on the paper preferably should be written in, highlighted by, or encirculed with, a bright color felt-point marker.

The envelope in which the response is submitted must include only submissions under 37 CFR 1.116. The envelope must be marked "Box AF" in the lower left corner and must be addressed to:

BOX AF
Commissioner of Patents and Trademarks
Washington, D.C. 20231

If the paper is being hand-carried to the Examining Group (instead of mailing to Box AF), the envelope, if any, and the response should both be marked:

"RESPONSE UNDER 37 CFR 1.116
EXPEDITED PROCEDURE
EXAMINING GROUP (Insert Group Number)"

Use of this procedure should avoid the necessity for extensions of time and the filing of unnecessary notices of appeal in many cases.

g. *Return Postcard*

If a receipt for any paper filed in the Patent and Trademark Office is desired, it may be obtained by enclosing with the paper a self-addressed postcard identifying the paper. The Patent and Trademark Office will stamp the receipt date on the card and place it in the outgoing mail.

The identifying data on the card should be so complete as to clearly identify the paper for which receipt is requested. For example, the card should identify the applicant name(s), serial number, filing date, interference number, etc. Also, the paper(s) should be identified by specifying the type thereof, namely affidavit, amendment, appeal, itemized components of applications, brief, drawings, fees, motions, supplemental oath or declaration, petition, etc.

A postcard receipt which itemizes and properly intentifies the papers which are being filed serves as prima facie evidence of receipt in the PTO of all the items listed thereon on the date stamped thereon by the PTO unless the postcard receipt has been annotated by the PTO to indicate that one or more items were not received. A postcard receipt will *not* serve as prima facie evidence of receipt in the PTO if the papers are not

itemized in a detailed manner, e.g., number of pages of specification and number of sheets of drawings, or if the postcard receipt has been annotated to indicate that one or more items was not received.

When papers for more than one document are filed under a single cover, a return addressed postcard should be attached to the paper for each document for which a receipt is desired.

h. *Secrecy—Related Papers (37 CFR 5)*

All correspondence in connection with 37 CFR 5 should be addressed to:

Commissioner of Patents and Trademarks
(Attention Licinensing and Review)
Washington, D.C. 20231

Improperly addressing such correspondence may delay delivery and could result in violations of 37 CFR 5. See 37 CFR 5.33 regarding correspondence.

i. *Special Box—Box AF*

Since the establishment of the special box "Box Non Fee Amendment," some questions have been received as to which box should be used for amendments after final rejections. Continue to use Box AF for amendments after final rejections, even if it is a non-fee amendment. Although mail delivery by the Mail Room should be the same in either case, the Patent Examining Group will expedite those labeled Box AF.

j. *Special Box—Box Re-exam*

Requests for re-examination should be clearly marked "Box Reexam" on the outer envelope, and include only requests for re-examination. The goal for processing request for re-examination is 30 days from receipt in the Mail Room to delivery to the appropriate examining group. Requests for re-examination which are marked on the outside envelope for Box Re-exam are immediately placed in a special box for pick up by re-examination processing clerks twice daily. Properly marked requests for re-examination allow us to meet the 30-day goal and allow the examiner adequate time for considering the request.

If requests for re-examination are included in packages with other mail, the entire package will be placed with the thousands of pieces of mail received on that date to be opened in date order. Reexamination requests are, therefore, delayed for several days making the 30-day goal nearly impossible to meet, and often reducing the time available for the examiner's consideration of the request.

k. *Special Designations for Mail*

Special PTO mail department numbers should be used to allow forwarding of particular types of mail to the appropriate areas as quickly as possible. Such mail is forwarded directly to the appropriate area without being opened. Only the specified type of document should be placed in an envelope addressed to one of these special departments. If any documents other then the specified type identified for each department are addressed to that department, they will be significantly delayed in reaching the appropriate area for which they were intended.

The following special department should be used only for their specified purpose. Address mail as follows:

Commissioner of Patents and Trademarks
Box _____
Washington, DC 20231

Box 3	Mail for the Office of Personel for NFC
Box 4	Mail for the Assistant Commissioner for External Affairs and the Office of Legislation and Internal Affairs.
Box 5	"No fee" mail related to trademarks.
Box 6	Mail for the Office of Procurement
Box 7	Reissue applications for patents involved in litigation and subsequently filed related papers.
Box 8	All papers for the Office of the Solicitor *except* communications relating to *pending* litigation.
Box 9	Coupon orders for U.S. patent and trademark copies.
Box 10	Orders for certified copies of patent and trademark applications.
Box 11	Electronic Ordering Service (EOS).
Box 12	Contributions to the Examiner Education Program.
Box 13	Mail for the Employee and Labor Relations Division.
Box 14	Invoices directed to the Office of Finance.
Box 171	Vacancy Announcement Applications.
Box AF	Expedited procedure for processing amendments and other responses after final rejection.
Box Assignment	All assignment documents except those filed with new applications.
Box FWC	Requests for File Wrapper Continuation Applications (under 37 CFR 1.62)
Box Interference	Comminications relating to interferences and applications and patents involved in iterference.
Box Issue Fee	All Communications following the receipt of a PTOL-85. "Notice of Allowance and Issue Fee Due," and prior to the issuance of a patent should be addressed to Box Issue Fee, unless advised to the contrary. Assignments should be submitted in a separate envelope and not be sent to Box Issue Fee.
Box M. Fee	Correspondence related to a patent that is subject to the payment of a maintenance fee.
Box Non-Fee-Amendment	Non-fee amendments to patent applications. (Use Box AF for responses after final rejection).

Box OED	Mail for the Office of Enrollment and Discipline
Box Patent Application	New patent application and associated papers and fees.
Box Trademark Application	New trademark application and associated papers and fees.
Box Pat. Ext.	Applications for patent term extension.
Box PCT	Mail related to applications filed under the Patent Cooperation Treaty.s
Box Reexam	Requests for Reexamination for *original* request papers *only*.
Box SN	For fee and petitions under 37 CFR 1.182 to obtain date received and/or serial number for patent applications *prior* to the Office's standard notification (return postcard or the official "Filing Receipt," "Notice to File Missing Parts," or "Notice of Incomplete Application").

13. *MAINTENANCE FEES*

a. *Address to Which Correspondence is Sent Regarding Patent Maintenance Fees*

Under 37 CFR 1.33(d), a "correspondence address" or change thereto may be filed with the Office during the enforceable life of a patent. This "correspondence address" will be used in any correspondence relating to maintenance fees unless a separate "fee address" has been specified solely for maintenance fee purposes as provided by CFR 1.363. Practitioners who do not wish to receive correspondence relating to maintenance fees must change the correspondence address in the patented file or provide the PTO with a fee address to which the correspondence should be sent. It is not required that a practitioner file a request for permission to withdraw pursuant to 37 CFR 1.36 solely for the purpose of changing the correspondence address in a patent, even though a withdrawal of a practitioner would change the correspondence address.

b. *Correspondence Address and/or Fee Address on Maintenance Fees*

Effective Nov. 1, 1984, 37 CFR 1.363 provides for a "fee address" to be entered in the Office patent file records for use in all correspondence relating to maintenance fees. The fee address is in addition to the "correspondence address" under 37 CFR 1.33. The "correspondence address" will continue to be used for all reexamination and interference purposes. If no separate fee address is specified, the correspondence address will also be used for maintenance fee correspondence. A similar reminder appears on the Issue Fee Transmittal Form, PTOL-85(b).

Practitioners should maintain a current "correspondence address" and, if desired, a separate current "fee address" during the enforceable life of the patent in order to ensure receipt of correspondence regarding maintenance fee.

Practitioners are reminded that they are obliged to inform a client for former client (or timely notify the Office of an inability to notify a client or former client) of any maintenance fee correspondence received from the PTO. See 37 CFR 10.23 (c) (8). This is similar to the practice with respect to interference and reexamination proceedings.

Practitioners who do not wish to receive correspondence relating to maintenance fees must change the correspondence address in the patented file or provide the PTO with a "fee address" to which such correspondence should be sent.

It is not required that a practitioner file a request for permission to withdraw pursuant to 37 CFR 1.36 solely for the purpose of changing the correspondence address in a patent even though a withdrawal of a practitioner would change the correspondence address. However, a request for permission to withdraw pursuant to 37 CFR 1.36 must be filed in the patent if the attorney or agent of record does not desire to receive correspondence relating to reexamination.

c. *Delayed Payment of Maintenance Fees*

Payment of any maintenance fee due on a patent after expiration of the patent may be accepted if the conditions set forth in 37 CFR 1.378 are satisfied.

In the past, petitions under 37 CFR 1.378 to accept delayed payment of the maintenance fee in an expired patent have been filed which allege, as a basis for unavoidable delay: (1) lack of knowledge that a maintenance fee was due and/or (2) failure to receive a Maintenance Fee Reminder notice from the PTO.

Practitioners are reminded that a patentee's lack of knowledge of a requirement to pay a maintenance fee does not constitute a showing of unavoidable delay; see 49 F.R. 34716 at page 34720, and 1046 O.G. 28 at page 32.

Maintenance Fee Reminder notices are mailed only as a courtesy after the "grace period" has begun; see 37 CFR 1.362(e). Patentees are expected to maintain their own docket systems to ensure timely payment of maintenance fees, preferably during the "window period"; see 37 CFR 1.362(d). Since patentees are expected to maintain their own docket systems for timely payment of maintenance fees, proof that a Maintenance Fee Reminder notice was not received from the PTO does not constitute a showing of unavoidable delay; see 49 F.R. 34716–34726, and 1046 O.G. 28–37.

Practitioners are cautioned that any petition to accept delayed payment of a maintenance fee under CFR 1.378 must include an enumeration of the steps taken to ensure timely payment of the maintenace fee. In this regard, the petition should include a detailed explanation of the docket system employed to ensure such timely payment. Any petition filed more than six months after the expiration of a patent will also be required to show that the failure to timely pay the maintenance fee was due entirely to circumstances outside the control of the patentee and those acting on behalf of the patentee.

d. *Maintenance Fee Transmittal Form Notice*

Where maintenance fee payments are to be made by authorization to charge a deposit account, the Maintenance Fee Transmittal Form, should reflect *both* the Payor's Name *and* signature in the bottom left corner thereof.

e. *Mandatory Indentifiers when Submitting Maintenance Fees*

Practitioners are reminded that a patent maintenance fee payment and any surcharge payment submitted must identify the patent to which it relates by at least *two mandatory identifiers* [see 37 CFR 1.366(c)]:

1. The patent number; and
2. The serial number of the United States application for the patent on which the maintenance fee is being paid.

Reissure patent maintenace fee due dates are based on the issue date of the original, rather than the reissue patent. The payment must identify the reissue patent by reissue patent number and reissue application serial number as the two mandatory identifiers and should also include the original patent number, the original patent issue date and the original United States application filing date. See 37 CFR 1.366(d).

The two mandatory identifiers are required as a minimum to enable a cross-check to be made to avoid errors in crediting payment of maintenance fees.

It is suggested that the payment identify the fee being paid for each patent as to whether it is the 3½, 7½ or 11½ year fee; whether small entity status is being changed or claimed; the amount of the maintenance fee and any surcharge being paid; any assigned payor number; the patent issue date; and the United States application filing date. See 37 CFR 1.366(d).

Failure to provide at least the two above-named mandatory identifiers will likely result in the non-acceptance of the maintenace fee payment. The date the two mandatory identifiers and the required fee are submitted is the date the maintenance fee payment is credited as being made.

f. *Payor Number*

In order to simplify changes in address by patent owners having several patents, and data input by the Patent and Trademark Office, a "payor number" will be assigned to each fee address when a fee address is presented to the Office in a patent or earlier upon request. A request for a payor number before a maintenance fee is paid or due will permit a patent owner to request that the fee address and payor number be recorded in the Office records of the patents owned on which maintenance fees are due so that all notices relating to maintenance fees will be sent to the fee address.

When a fee address has been specified as provided by 37 CFR 1.363, that address is assigned a "payor number". Processing time can be greatly reduced if practitioners cite that "payor number" when submitting a maintenance fee payment.

The Patent and Trademark Office has established a procedure for assigning a payor number upon request by a patent owner or a party responsible for paying maintenance fees. Such a party may be, for example, the finance office of a corporation or of a separate organization specializing in maintenance fee payments.

Under the procedure, a patent owner or other party may request a payor number for a particular fee address by writing to:

Commissioner of Patents and Trademarks
Box M. Fee
Washington, DC 20231

Each request for a payor number should include the:

- fee address to be used by the Office, and
- telephone number of the fee addressee to be used to resolve problems.

After receipt of a payor number, it may be used to indicate to the Patent and Trademark Office the fee address to be used in particular patents on which maintenance fees will become due and in applications in which issue fees have been or are being paid. Any request for entry of a payor number or fee address in the Office records of a patent, however, must be signed by the patent owner or his or her attorney or agent of record.

After a payor number has been assigned, it should be used in all future maintenance fee payments and related correspondence. However, where a payor number has not been previously entered in the Office records for a particular patent, the mere indication of a payor number at the time of payment of the maintenance fee, without the signature of the patent owner or the owner's attorney or agent of record, will not serve to make the payor number of record in the Office for that patent.

The problems which most often arise in connection with attempts to establish a fee address in a particular patent or group of patents is that the request is being signed by an attorney who is not of record in each of the patents. This results in the request being entered only in part.

Also, when the request is signed by an owner of the patent, the records of the Assignment Branch do not always reflect such ownership. Where the assignment was recorded prior to Dec. 1980, it would help the Office if the PTO reel and frame number of the assignment recordation were presented in the paper requesting that a fee address be entered, and if the person signing the request would indicate his or her title.

g. *Public Availability of Maintenance Fee Petitions/Decisions*

Maintenance fee petitions and decisions thereon are public records. Copies thereof can be obtained by submitting a written request to the Certification Branch. The request should state the patent number and serial number. The charge for the copies is currently $.50 per page.

14. NEW PATENT APPLICATIONS

a. *Attorney Docket Number on Incomplete/Missing Parts Notices*

In response to several requests from patent attorneys, the PTO is now entering the attorney docket number on the Notice of Incomplete Application and Notice to File Missing Parts of Application.

The attorney docket number which will be entered on the Notice will be that which was submitted on the transmittal letter as filed with a new patent application. The number must be clearly identified as an "attorney docket number."

If the Office makes a mistake in recording the attorney docket number on the Notice of Incomplete Application or the Notice to File Missing Parts of Application, such mistake is not to be used by the attorney as cause for delay in response. Nor is the attorney to request that the Office correct the docket number prior to response to the Notice. The attorney can notify the Office in the response, but no change will be made by the Office until the Filing Receipt is issued.

If the attorney wishes to change the attorney docket number from that which was entered on transmittal letter as filed, the request must be submitted through amendment, submitted to the Patent Examining Corp.

b. *Continuation or Divisional—Retaining Original Claim*

When filing under Rule 1.60, retain at least one original claim from the parent application to assure a complete application. Only amendments reducing the number of claims or adding a reference to the prior application [Rule 1.78(a)] will be entered, upon request, before calculating the filing fee and granting the filing date. *Reminder*: Applicant cannot file a CIP (continuation-in-part) under Rule 1.60.

c. *Continuation or Divisional—Problems*

Applicantions are often filed incorrectly under 37 CFR 1.60. This causes problems not only for applicants but also for the Patent and Trademark Office. Filing dates are not granted to applications which do not comply with the rules. As a result, petitions with fees are required to be filed in such applications before a filing date will be granted.

Most often, the problems that arise in this area can be characterized as the following:

(1) Applicants continue to fail to comply with the requirements of 37 CFR 1.60 with regard to what must be submitted upon filing under the rule. This is true even after the clarifying amendments (effective Apr. 1, 1984) were made to the rule.
A true copy of the prior application must be filed including the specification (with claims), drawings, oath or declaration showing the applicant's signature or an indication it was signed, and any amendments referred to in the oath or declaration filed to complete the prior application.
(2) Applicants are using transmittal forms which request filings under 37 CFR 1.62 when it was really desired to file a divisional application under 37 CFR 1.60 and not to abandon the parent application.

d. *File Wrapper Continuation—Preliminary Amendment*

Many continuation applications filed under 37 CFR 1.62 contain no preliminary amendment to the claims which were finally rejected in the parent application. The result is a first action final rejection of these claims. Applicants should file any desired amendments at the time the application is filed under 37 CFR 1.62, since the Office is treating these applications as "Special" and an action on the merits will be rendered quite promptly.

To expedite processing under Rule 1.62, make certain that the parent serial number cited in the transmittal letter is the correct serial number.

e. *File Wrapper Continuation—Problems*

Applications continue to be filed incorrectly under both 37 CFR 1.60 and 37 CFR 1.62. Filing dates are not granted to applications which do not comply with the rules. As a result, petitions with fees are required to be filed in such applications before a filing date will be granted.

The problems that most frequently arise in this area can be characterized as the following:

(1) Applications have been filed with a transmittal form requiesting filing under 37 CFR 1.60 when it was intended to file under 37 CFR 1.62. The confusion in the record of such applications must be clarified by a decision on petition before the applications can be processed for examination.
(2) Some applicants fail to realize that the parent application is abandoned by the filing of a continuing application under 37 CFR 1.62. Paragraph (g) of 37 CFR 1.62 states:

> "The filing of a request for a continuing application under this section will be considered to be a request to expressly abandon the prior application as of the filing date granted the continuing application."

Correction after such a mistaken filing under 37 CFR 1.62 usually requires a revival of the parent application under 37 CFR 1.137(a) or (b) which expends resources of both the applicant and the PTO.
(3) Some applicants are attempting to file continuing applications under 37 CFR 1.62 after payment of the issue fee in the patent application. Such applications are improper and are not entitled to a filing date. Additionally, such filings will not affect the prior application; i.e., the parent application may issue as a patent. Paragraph (a) of 37 CFR 1.62 specifies that continuing applications may be filed under 37 CFR 1.62 "before the payment of the issue fee, abandonment of, or termination of proceedings on the prior application".
(4) Some applicants are attemping to file continuation-in-part applications under 37 CFR 1.62 with a new specification rather than with the changes made by amendment to the prior application. As stated in 37 CFR 1.62(a), filings under 37 CFR 1.62 use the specification of the prior application.
Paragraph (c) of 37 CFR 1.62 also states:

> "In the case of a continuation-in-part application which *adds and claims additional disclosure by amendment*, an oath or declaration as required by §1.63 must also be filed. . . "(emphasis added)

(5) The request for a FWC *must* contain the original signature of the inventor, assignee, attorney or agent of record, or attorney or agent filing under representative capacity. [1.34(a)]

f. *Information Disclosure Citation—Form PTO 1449*

The Public is encouraged to use Form PTO 1449, "Information Disclosure Citation," when preparing a statement under 37 CFR 1.97–1.99 (see MPEP §609). This form provides the Office with a uniform way of listing the citations and a vehicle from which the information thereon can be printed on the issued patent.

Some citations are being presented on various forms prepared by the public rather than on Form PTO 1449. As a result, delays are cropping up in the printing process because the printer has difficulty in following the various formats and is having to query the examiner each time a non-PTO 1449 form is used.

Note that listing citations on Form PTO 1449 does not raise an irrebuttable presumption that the citation is prior art. A holding by an examiner that any citation on Form PTO 1449 is prior art to claimed subject matter can be rebutted by procedures commonly used to rebut the prior art status of an examiner's citations on Form PTO 1449, "Notice of References Cited".

Among the information that should be provided on Form PTO 1449 is the date of publication of the citation. In addition, it is helpful if the class and subclass of each citation is provided. It is appreciated that classification information may not be known at the time Form PTO 1449 is prepared. When classification information is not known, draw a line in the boxes under the class and subclass heading adjacent to the citation for which classification information is not known.

g. *Petition for License*

Rule 5.12 states that "filing of an application for patent for inventions made in the United States will be considered to include a petition for license under 35 USC 184 for the subject of the application. The filing receipt will indicate a license is granted." There is no need to request a corrected filing receipt deleting the words "License Granted." Its intent is to provide the necessary acknowledgement for those filing abroad.

h. *Processing and Retention Fees for Abandoned Applications*

An application, which has become abandoned pursuant to 37 CFR 1.53(d) for failure to pay the filing fee, will be disposed of unless the processing and retention fee set forth in §1.21(l) is paid within the 1-year period referred to in §1.53(d). Moreover, the processing and retention fee must be timely paid in order to obtain certified copies of the application (e.g., for convention priority purposes) or to establish in a later filed application the filing date benefit of an earlier copending application under 35 USC 120 and 37 CFR 1.78(a)(3). Therefore, an application which has become abandoned for the reasons set forth above should be immediately reviewed in order to timely determine the advisability of submitting a processing and retention fee payment.

i. *Surcharge for Filing a Patent Application*

Filing dates are accorded to applications filed without the basic filing fee and without the oath or declaration. In such cases, a notice is mailed by Application Branch requiring at least the basic filing fee and the oath or declaration, accompanied by a surcharge [37 CFR 1.16(e)]. In numerous instances, applicants fail to submit the surcharge causing the application to become abandoned. See 37 CFR 1.53(d) and MPEP §506.

15. PATENT COOPERATION TREATY APPLICATIONS

a. *Responses Filed in International Applications*

The 18 month publication deadline for international applications filed under the Patent Cooperation Treaty (PCT) is critical. Therefore, it is in applicant's interest to respond timely to an invitation to correct a PCT Article 14 defect. An untimely response can result in the withdrawal of the international application under Article 14 and PCT Rule 26. If an extension to respond is needed, call the person who signed the invitation before the expiration of the time limit. The PTO will strictly comply with PCT Article 14 and Rule 26 in holding international applications withdrawn when responses are untimely or not filed.

b. *Early Notification of Receipt of PCT Designated Office Cases*

If you would like to have early notification that the PTO has received requirements under 35 U.S.C. 371 to enter the Designated Office phase, you should send two self-addressed, stamped postcards with those requirements. The first postcard will be date stamped and returned to you upon receipt of the requirements by the PCT staff. The second postcard will be sent to you when the case is released to the Mail Room to join the regular flow of national applications. The second postcard will be stamped with the U.S. serial number. If only one postcard is sent, it will be marked with the U.S. serial number but will remain with the application until requirements are completed and the case is released.

When corrections of PCT Rule 91 obvious errors in the description, claims or abstract are submitted together with corrections of defects under PCT Article 14, the transmittal letter should clearly note the Rule 91 corrections. This is necessary because, under PCT Rule 91.1(e), the Receiving Office can authorize the rectification of obvious errors only in the Request (Form PCT/RO/101), while Searching Authority authorization is needed for obvious errors in the description, claims or abstract. When the transmittal letter clearly notes the Rule 91 corrections, Searching Authority authorization of any obvious errors in the description, claims or abstract can be expedited.

Call PCT on 557-2003 if you have questions concerning responses filed during the international stage for international applications under the PCT.

16. PATENT COPIES

a. *Coupon Ordering Service*

Some problems being experienced in successfully filling coupon orders are:

- No return address or Box Number
- Incorrect return address or Box number
- Missing name of person(s) ordering copies (although the PTO attempts to send such orders, they are frequently returned by the receiving organization).
- Failure to identity whether request is for patent, trademark, or design copy.
- Failure to identity the patent, trademark, or design number being requested. Identification by application serial number is not acceptable.
- Inappropriate use of coupon for ordering a foreign patent (Foreign patents are $10.00 per copy and should be ordered through the Scientific Library).
- Insufficient payment (any coupons valued less than $1.50 must accompany additional payment either by check, money order, or additional coupons).

To ensure coupon orders can be successfully filled, please include a patent/trademark/design number, complete name, return address/box number, and the sufficient fee.

b. *Electronic Ordering Service*

Copies may be ordered electronically through the PTO's Electronic Ordering Service (EOS) rather than placing orders through the mail. With EOS, orders are received the same day they are placed, thereby reducing the turnaround time by about seven days. Orders can be placed any day, 24 hours a day.

To use EOS you need a standard computer terminal and modem. If you have any questions about equipment or the technical aspects of EOS, call (202) 377-2535.

The copy costs are $1.50 for each patent and trademark, and $6.00 for each plant patent. In addition, there will be a communication cost. This has been averaging 10 cents per copy; could range up to 25 cents on single orders.

Our regulations require that we receive payment for services before they are rendered. For this reason, a PTO deposit account is a prerequisite for becoming an EOS user. There are two types of PTO deposit accounts. One is an unrestricted account which can be used for any service PTO provides. This account requires a minimum balance of $1,000. The second type of account, the restricted deposit account, is available only for EOS and for subscriptions for copies of newly issued patents by subject matter classification. The restricted account requires a minimum balance of $300.

If you would like to become an EOS user or if you have questions, call (703) 557-7261.

c. *Subscription Services*

When submitting changes to subscription accounts, allow approximately two months from the date mailed to the Patent and Trademark Office for changes to become effective. The reason for the two month delay is to allow for changes to be recorded, data entered, and the automated system to be updated.

17. PETITIONS TO REVIVE

a. *Request and Fee for Extension Not Required*

Frequently, a petition to revive an abandoned application is accompanied by an unnecessary request and fee for extension of time. Our policy is set forth in MPEP 711.03(c). Specifically, a response does not require a request and fee for extension of time as a condition of revival.

b. *Terminal Disclaimer*

A petition to revive an abandoned application is often accompanied by an unnecessary terminal disclaimer. A terminal disclaimed is required only when a grantable petition based on *unavoidable delay* is not filed within six months of the date of abandonment [37 CFR 1.137(a) and 1.137(c)]. It follows that a terminal disclaimer should not accompany a petition based on *unintentional abandonment* [(37 CFR 1.137(b)]. In these respects, analogous reasoning applies to petitions to accept late payment of the issue fee under 37 CFR 1.155 or 1.316.

When a terminal disclaimer is a necessary component of the petition, the period to be disclaimed must equal the number of months between the date of abandonment and the date a grantable petition is filed. The date of abandonment is the date the period for response has expired [see MPEP 711.04(a)]. This is normally the end of the three month shortened statutory period. Moreover, the terminal disclaimer should employ the format shown in Figure 1.

18. POWER TO INSPECT

a. *Power of Attorney*

The Office receives letters granting power to inspect patent applications. These may only be granted by the attorney of record or inventor. Sometimes the person signing the power is not authorized to do so, causing delay until proper authorization is received. Copies of completed applications cannot be made during the pre-examination process. They can be inspected, but not pulled from the work flow to have copies made.

b. *Withdrawal of Attorney*

To expedite requests for permission to withdraw as attorney under 37 CFR §1.36, submit the request in triplicate (original and two copies) and indicate thereon the present mailing addresses of the attorney who is withdrawing and of the applicant. The examining group number should also appear on all such requests. Because the Office does not recognize law firms, each attorney of record must sign the notice of withdrawal, or the notice of withdrawal must contain a clear indication of one attorney signing on behalf of another.

A request to withdraw is effective when approved rather than when received. This is particularly important when such requests are submitted toward the end of the period for response. There should be at least 30 days between approval of withdrawal and the expiration date of a time response period so that the applicant will have time to obtain other representation or take other action. If less than 30 days remains in a running response period, a request to withdraw is normally disapproved.

If a period has been set for response and the period may be extended [without a showing of cause pursuant to 37 CFR 1.136(a)] by filing a petition for extension of time and fee, it is not necessary to seek such extension of time for withdrawal to be approved. In such a situation, however, withdrawal will not be approved unless at least 30 days would remain between the date of approval and the last date on which such a petition for extension of time and fee could properly be filed.

19. REISSUES

a. *Amendments*

To avoid unnecessary delays in the issuance of reissue applications, applicants and their attorneys are reminded to exercise caution and give sufficient attention to 37 CFR 1.121(a) and (e) in presenting reissue amendments. The practices and procedures vary somewhat from regular utility application amendments.

MPEP Sec. 1455 provides guidance for proper entry of amendments and claim numbering. Publication of the reissue application(s) may be needlessly postponed while formal irregularities are corrected.

b. *Oaths and/or Declarations*

Since standard oath and declaration forms are not used in reissue applications, applicants are commonly neglecting to include averments required by 37 CFR 1.63 per 37 CFR 1.175(a). The most frequent omissions involve the "duty of disclosure" acknowledgment, and the "reviewed and understands" statement. Such omissions usually necessitate additional handling and correspondence, and cause undue time delays, which result in postponement of publication of the reissue patent.

A frequent problem in reissue practice is the failure of applicants to satisfactorily comply with 37 CFR 1.175 regarding the description of all errors of the original patent in the reissue oath or declaration. Applicants are required to specify errors in the original reissue oath or declaration at the time of filing the reissue application. They must also specify, in a supplemental oath or declaration, any errors brought to their attention during the prosecution, as well as the circumstances surrounding the occurrence or discovery of these errors. Every departure from the original patent represents an "error" and must be particularly and distinctly specified and supported in the original, or a supplemental, reissue oath or declaration under 37 CFR 1.175. See MPEP Sec. 1414 and 1444. Postponement of publication of the reissue patent may result if these requirements are not met at the time of allowance.

20. SMALL ENTITY STATUS

a. *Small Entity Statements*

Verified statements claiming small entity status, where appropriate, would best be signed and submitted at the time the application oath or declaration is signed to permit filing of the statement with the application. This would reduce correspondence between attorney and client, reduce paper handling by the PTO support staff and the PTO Finance Branch, and greatly simplify the processing of subsequent papers involving fees. If small entity status is being claimed for the first time at the time of payment of the issue fee, a verified statement claiming small entity status should be submitted with the fee. See MPEP §509.03.

21. TRADEMARKS

a. *Application Drawings*

To avoid delays in processing new trademark applications, the drawing should have the following information in the upper left hand corner:

- Drawing title.
- Applicant's name and address.
- First use date.
- First use in interstate commerce date.
- Goods, services or both.

b. *File Histories*

When requesting trademark file histories, the "status date" (i.e., date abandoned) must be provided to fill the order if the file is abandoned. If not known, this information can be obtained from TRAM. The request will be returned unfilled if this date is not provided.

c. *Post Registration*

Section 8 Affidavit or Declaration Held Insufficient During Post Registration Examination — The Trademark Act of 1946, Section 8(a) was amended Aug. 27, 1982, Public Law 97-247 (96 Stat. 317), to clarify that the continued use required to be shown in the sixth year under Section 8(a) be use "in commerce."

Subsequently the Trademark Rules were amended on Jan. 28, 1983 (48 *Federal Register* 3977), to require that all Section 8(a) affidavits or declarations "state that the registered mark is in use in commerce and specify the nature of such commerce." [37 C.F.R. Section 2.162(e)].

The affadavit or declaration must be filed between the fifth and sixth year following the date of registration and it must contain a statement that the "mark is in use in commerce," with evidence thereof. There may be no extensions of time beyond the sixth year for submission of this statement and evidence of use of the mark in commerce. However, if the timely-filed affidavit or declaration does not set forth the type of commerce, the registrant will be given six months to submit that information even though the sixth year may have expired. The rules do not provide for any further extensions of time beyond the six months.

While the Post Registration Division will allow up to six months to respond to a letter from the office, a supplemental or substitute affidavit or declaration required by Section 8(a) will not be considered unless it is received before the expiration of the six year anniversary of the registration. It is suggested that registrants file Section 8(a) affidavits as early as possible between the fifth and sixth year following registration to allow time to submit an affidavit or declaration which is correct, if required.

Signatures —The corporate title of the affiant/declarant is often missing. Occasionally, the affidavit/declaration is unsigned.

Assignments —It will speed up the processing of Section 8 affidavits and renewal applications if the affiant/declarant will furnish the reel and frame number and the date(s) of recordation with the USPTO Assignment Section of any relevant assignment, merger, change of name, or other transfer.

Fees —Many of the affidavits and applications for renewal contain insufficient fees. The fee schedule for these transactions done in the Post Registration are is listed below:

(1) For filing an application for renewal of a registration, per class	$300.00
(2) For filing an affidavit under Section 8 of the Act, per class	$100.00
(3) For filing an affidavit under Section 15 of the Act, per class	$100.00
(4) For filing a combined affidavit under Sections 8 and 15 of the Act, per class	$200.00

If you have any questions, please call (703) 557-3061.

SPECIAL BOXES FOR MAIL

Special PTO mail box numbers should be used to allow forwarding of particular types of mail to the appropriate areas as quickly as possible. Such mail is forwarded directly to the appropriate area without being opened. Only the specified type of document should be placed in an envelope addressed to one of these special boxes. If any documents other than the specified type identified for each box are addressed to that box, they will be delayed in reaching the appropriate area for which they are intended.

The following special boxes should be used only for their specified purpose. Address mail as follows:

Box Non Fee Amendment	Non-fee amendments to patent applications. (Use Box AF for responses after final rejection).
Box OED	Mail for the Office of Enrollment and Discipline.
Box Pat. Ext.	Applications for patent term extension.
Box PCT	Mail related to applications filed under the Patent Cooperation Treaty.
Box Reexam	Mail related to Reexamination.
Box SN	For fee and petitions under 37 CFR 1.182 to obtain date received and/or serial number for patent applications *prior* to the Office's standard notification (return post card or the official "Filing Receipt," "Notice to File Missing Parts," or "Notice of Incomplete Application").
PATENT APPLICATION	New patent application and associated papers and fees.
TRADEMARK APPLICATION	New trademark application and associated papers and fees.

Reference Collections of U.S. Patents Available for Public Use in Patent Depository Libraries

The following libraries, designated as Patent Depository Libraries (PDLs), receive current issues of U.S. Patents and maintain collections of earlier-issued patents. The scope of these collections varies from library to library, ranging from patents of only recent years to all or most of the patents issued since 1790.

These patent collections, which are organized in patent number sequence, are available for use by the public free of charge. Each of the PDLs, in addition, offers supplemental reference publications of the U.S. Patent Classification System, including the *Manual of Classification, Index to the U.S. Patent Classification, Classification Definitions*, and provides technical staff assistance in their use to aid the public, in gaining effective access to information contained in patents. CASSIS (Classification And Search Support Information System), which provides direct, on-line access to Patent and Trademark Office data, is available at all PDLs. Facilities for making per copies of patents from either microfilm or paper collections are generally provided for a fee.

Since there are variations in the scope of patent collec patents from either microfilm or paper collections are generallcontemplating use of the patents at a particular library is advised to contact that library, in advance, about its collection and hours in order to avert possible inconvenience.

MARKS PUBLISHED FOR OPPOSITION

The following marks are published in compliance with section 12(a) of the Trademark Act of 1946. Applications for the registration of marks in more than one class have been filed as provided in section 30 of said act as amended by Public Law 772, 87th Congress, approved Oct. 9, 1962, 76 Stat. 769. Opposition under section 13 may be filed within thirty days of the date of this publication. See rules 2.101 to 2.105.

A separate fee of two hundred dollars for opposing each mark in each class must accompany the opposition.

SECTION 1.—INTERNATIONAL CLASSIFICATION

The short titles associated below with the international class numbers are terms designed merely for quick identification and are not an official part of the international classification. The full names of international classes are given in section 6.1 of the trademark rules of practice.

The designation "U.S. Cl." appearing in this section refers to the U.S. class in effect prior to Sep. 1, 1973 rather than the international class which applies to applications filed on or after that date. For adoption of international classification see notice in the OFFICIAL GAZETTE of Jun. 26, 1973 (911 O.G. TM 210).

SECTION 2.—INTERNATIONAL CLASSIFICATION

The short titles associated below with the international class numbers are terms designed merely for quick identification and are not an official part of the international classification. The full names of international classes are given in section 6.1 of the trademark rules of practice.

The designation "U.S. Cl." appearing in this section refers to the U.S. class in effect prior to Sep. 1, 1973 rather than the international class which applies to applications filed on or after that date. For adoption of international classification see notice in the OFFICIAL GAZETTE of Jun. 26, 1973 (911 O.G. TM 210).

SECTION 1.—INTERNATIONAL CLASSIFICATION

The short titles associated below with the international class numbers are terms designed merely for quick identification and are not an official part of the international classification. The full names of international classes are given in section 6.1 of the trademark rules of practice.

The designation "U.S. Cl." appearing in this section refers to the U.S. class in effect prior to Sep. 1, 1973 rather than the international class which applies to applications filed on or after that date. For adoption of international classification see notice in the OFFICIAL GAZETTE of Jun. 26, 1973 (911 O.G. TM 210).

SECTION 1.—INTERNATIONAL CLASSIFICATION

The short titles associated below with the international class numbers are terms designed merely for quick identification and are not an official part of the international classification. The full names of international classes are given in section 6.1 of the trademark rules of practice.

The designation "U.S. Cl." appearing in this section refers to the U.S. class in effect prior to Sep. 1, 1973 rather than the international class which applies to applications filed on or after that date. TRADEMARK REGISTRATIONS CANCELED

The designation "U.S. Cl." appearing in this section refers to the U.S. class in effect prior to Sep. 1, 1973 rather than the international class which applies to applications filed on or after that date. For adoption of international classification see notice in the OFFICIAL GAZETTE of Jun. 26, 1973 (911 O.G. TM 210).

Notice of Maintenance Fees Payable

Title 37, Code of Federal Regulations, Section 1.362(d), effective Nov. 1, 1984, provides that maintenance fees may be paid without surcharge for a six-month period beginning 3, 7, and 11 years after the date of issue of patents based on applications filed on or after Dec. 12, 1980. An additional six-month grace period is provided by 35 U.S.C. 41(b) and 37 CFR 1.362(e) for payment of the maintenance fee with the surcharge set forth in 37 CFR 1.20(k) or (l), as amended effective Oct. 5, 1985. If the maintenance fee is not paid in a patent requiring such payment the patent will expire on the 4th, 8th or 12th anniversary of the grant.

Attention is drawn to the patents which were issued on February 4, 1986 for which maintenance fees due at 3 years and six months may now be paid. The patents have patent numbers within the following ranges:

Utility Patents 4,567,611 through 4,569,085
Reissue Patents based on the above identified patents.

Attention is drawn to the patents which were issued on January 26, 1982 for which maintenance fees due at 7 years and six months may now be paid. The patents have patent numbers within the following ranges:

Utility Patents 4,313,229 through 4,314,378
Reissue Patents based on the above identified patents.

No maintenance fees are required for design or plant patents.

Payments of maintenance fees in patents should be directed to "Commissioner of Patents and Trademarks, Box M. Fee, Washington, D.C. 20231."

The current amounts of the maintenance fees due at 3 years and six months are set forth in 37 CFR 1.20(e) and (h), as amended effective Oct. 5, 1985, which are reproduced below:

37 CFR §1.20 Post-issuance fees

"(e) For maintaining an original or reissue patent, except a design or plant patent, based on an application filed on or after Dec. 12, 1980 and before Aug. 27, 1982, in force beyond 4 years; the fee is due by three years and six months after the original grant . . . $ 225.00"

"(h) For maintaining an original or reissue patent, except a design or plant patent, based on an application filed on or after Aug. 27, 1982, in force beyond 4 years; the fee is due by three years and six months after the original grant:

By a small entity (§1.9(f)) . . . . . $ 225.00
By other than a small entity . . . . . $ 450.00"

The amounts of the surcharges as amended effective Oct. 5, 1985, are set forth in 37 CFR 1.20 (k) and (l) which are reproduced below:

"(k) Surcharge for paying a maintenance fee during the 6-month grace period following the expiration of three years and six months, seven years and six months, and eleven years and six months after the date of the original grant of a patent based on an application filed on or after Dec. 12, 1980 and before Aug. 27, 1982 . . . . . $ 110.00"

"(l) Surcharge for paying a maintenance fee during the 6-month grace period following the expiration of three years and six months, seven years and six months, and eleven years and six months after the date of the original grant of a patent based on an application filed on or after Aug. 27, 1982:

By a small entity (§1.9(f)) . . . . . $ 55.00
By other than a small entity . . . . . $ 110.00"

Section 1.20 paragraph (m) as amended as a result of enactment of Public Law 98-622 effective Nov. 8, 1984, is reproduced below:

"(m) Surcharge for accepting a maintenance fee after expiration of a patent for non-timely payment of a maintenance fee where the delay in payment is shown to the satisfaction of the Commissioner to have been unavoidable . . . . . $ 500.00"

Notice of Expiration of Patents Due to Failure to Pay Maintenance Fees

35 U.S.C. 41 and 37 CFR 1.362(g) provide that if the required maintenance fee and any applicable surcharge are not paid in a patent requiring such payment, the patent will expire at the end of the 4th, 8th, or 12th anniversary of the grant of the patent depending on the first maintenance fee which was not paid.

According to the records of the Office, the patents listed below have expired due to failure to pay the required maintenance fee and any applicable surcharge.

Survey of Registered Practitioners In Patent Cases

Pursuant to 37 CFR 10.11(b), a survey letter was mailed on Nov. 18, 1988 from the Office of Enrollment

and Discipline (OED) to all practitioners in patent cases whose last names begin with K through O. Enclosed with the letter was a data sheet which had to be completed and returned to OED as soon as possible. All data sheets returned to OED will be acknowledged. Failure by a practitioner to submit a completed data sheet within the time period specified in the survey letter will result in the practitioner being removed from the register in accordance with CFR 10.11(b).

If your last name begins with K through O and you have not received a data sheet or if you returned the data sheet to OED and you did not receive an acknowledgement within three (3) months after returning the data sheet to OED, please contact Patricia M. Jordan at (703) 557-1728.

Dec. 12, 1988.

CAMERON WEIFFENBACH,
Director, Office of Enrollment and Discipline.

Reference Collections of U.S. Patents Available for Public Use in Patent Depository Libraries

The following libraries, designated as Patent Depository Libraries (PDLs), receive current issues of U.S. Patents and maintain collections of earlier-issued patents. The scope of these collections varies from library to library, ranging from patents of only recent years to all or most of the patents issued since 1790.

These patent collections, which are organized in patent number sequence, are available for use by the public free of charge. Each of the PDLs, in addition, offers supplemental reference publications of the U.S. Patent Classification System, including the *Manual of Classification, Index to the U.S. Patent Classification, Classification Definitions,* and provides technical staff assistance in their use to aid the public, in gaining effective access to information contained in patents. CASSIS (Classification And Search Support Information System), which provides direct, on-line access to Patent and Trademark Office data, is available at all PDLs. Facilities for making paper copies of patents from either microfilm or paper collections are generally provided for a fee.

Since there are variations in the scope of patent collec patents from either microfilm or paper collections are generallcontemplating use of the patents at a particular library is advised to contact that library, in advance, about its collection and hours in order to avert possible inconvenience.

MARKS PUBLISHED FOR OPPOSITION

The following marks are published in compliance with section 12(a) of the Trademark Act of 1946. Applications for the registration of marks in more than one class have been filed as provided in section 30 of said act as amended by Public Law 772, 87th Congress, approved Oct. 9, 1962, 76 Stat. 769. Opposition under section 13 may be filed within thirty days of the date of this publication. See rules 2.101 to 2.105.

A separate fee of two hundred dollars for opposing each mark in each class must accompany the opposition.

SECTION 1.—INTERNATIONAL CLASSIFICATION

The short titles associated below with the international class numbers are terms designed merely for quick identification and are not an official part of the international classification. The full names of international classes are given in section 6.1 of the trademark rules of practice.

The designation "U.S. Cl." appearing in this section refers to the U.S. class in effect prior to Sep. 1, 1973 rather than the international class which applies to applications filed on or after that date. For adoption of international classification see notice in the OFFICIAL GAZETTE of Jun. 26, 1973 (911 O.G. TM 210).

SECTION 2.—INTERNATIONAL CLASSIFICATION

The short titles associated below with the international class numbers are terms designed merely for quick identification and are not an official part of the international classification. The full names of international classes are given in section 6.1 of the trademark rules of practice.

The designation "U.S. Cl." appearing in this section refers to the U.S. class in effect prior to Sep. 1, 1973 rather than the international class which applies to applications filed on or after that date. For adoption of international classification see notice in the OFFICIAL GAZETTE of Jun. 26, 1973 (911 O.G. TM 210).

SECTION 1.—INTERNATIONAL CLASSIFICATION

The short titles associated below with the international class numbers are terms designed merely for quick identification and are not an official part of the international classification. The full names of international classes are given in section 6.1 of the trademark rules of practice.

The designation "U.S. Cl." appearing in this section refers to the U.S. class in effect prior to Sep. 1, 1973 rather than the international class which applies to applications filed on or after that date. For adoption of international classification see notice in the OFFICIAL GAZETTE of Jun. 26, 1973 (911 O.G. TM 210).

PATENT AND TRADEMARK OFFICE NOTICES

Patent Cooperation Treaty (PCT) Information

For information concerning the PCT member countries see the notice appearing in the *Official Gazette* at 1076 O.G. 3 on Mar. 3, 1987.

For use of the European Patent Office as a Searching Authority for PCT applications filed in the United States Receiving Office, see the notice appearing in the *Official Gazette* at 1022 O.G. 52 on Sept. 28, 1982.

For use of the European Patent Office as a Preliminary Examining Authority for PCT applications filed in the United States Receiving Office, see the notices appearing in the *Official Gazette* at 1080 O.G. 2 on July 7, 1987 and at 1091 O.G. 2 on June 7, 1988.

Certain domestic PCT fees for international applications have been changed effective Oct. 5, 1985 in the rule change notice titled "Revision of Patent Fees" published at 1057 O.G. 24 on Aug. 20, 1985.

The Search fee of the European Patent Office was changed due to a difference in the exchange rate of the U.S. dollar with regard to the German Mark as of Oct. 1, 1988, and was announced in the *Official Gazette* at 1094 O.G. 2 on Sept. 6, 1988.

Domestic PCT fees for Chapter II, effective July 1, 1987, were announced in the *Official Gazette* at 1079 O.G. 32 on June 16, 1987.

International PCT fees were changed on July 1, 1987 due to a difference in the exchange rate of the U.S. dollar with regard to the Swiss Franc and were announced in the *Official Gazette* at 1079 O.G. 50 on June 23, 1987.

International PCT Chapter II fees which were effective July 1, 1987, were announced in the *Official Gazette* at 1079 O.G. 50 on June 23, 1987. The elimination of multiple handling fees and the supplement to the handling fee under PCT Rule 57 was announced at 1085 O.G. 34 on Dec. 22, 1987.

The withdrawal of the Japanese declaration under PCT Article 64(2)(a), concerning the requirement for a Japanese translation of the international application within 20 months from the priority date when Japan is elected under PCT Chapter II, as from Dec. 8, 1987, was announced at 1085 O.G. 34 on Dec. 22, 1987.

The withdrawal of the Danish declaration under PCT Article 64 (1)(a), that Denmark shall not be bound by PCT Chapter II, as from Nov. 1, 1988, was announced at 1095 O.G. 2 on Oct. 4, 1988.

The withdrawal of the Norwegian declaration under PCT Article 64(1)(a), that Norway shall not be bound by PCT Chapter II, as from Jan. 1, 1989, was announced at 1096 O.G. 34 on Nov. 22, 1988.

National stage fees effective July 1, 1987, for entering the U.S. Patent and Trademark Office as a designated or elected Office were changed effective July 1, 1987, and were announced in the *Official Gazette* at 1079 O.G. 32 on June 16, 1987.

DONALD J. QUIGG,
Oct. 26, 1988. *Assistant Secretary and Commissioner of Patents and Trademarks.*

Notices of Maintenance Fees Payable

Title 37, Code of Federal Regulations, Section 1.362(d), effective Nov. 1, 1984, provides that maintenance fees may be paid without surcharge for a six-month period beginning 3, 7, and 11 years after the date of issue of patents based on applications filed on or after Dec. 12, 1980. An additional six-month grace period is provided by 35 U.S.C. 41(b) and 37 CFR 1.362(e) for payment of the maintenance fee with the surcharge set forth in 37 CFR 1.20(k) or (l), as amended effective Oct. 5, 1985. If the maintenance fee is not paid in a patent requiring such payment the patent will expire on the 4th, 8th or 12th anniversary of the grant.

Attention is drawn to the patents which were issued on February 11, 1986 for which maintenance fees due at 3 years and six months may now be paid. The patents have patent numbers within the following ranges:

Utility Patents 4,569,086 through 4,570,265
Reissue Patents based on the above identified patents.

Attention is drawn to the patents which were issued on February 9, 1982 for which maintenance fees due at 7 years and six months may now be paid. The patents have patent numbers within the following ranges:

Utility Patents 4,314,379 through 4,315,333
Reissue Patents based on the above identified patents.

No maintenance fees are required for design or plant patents.

Payments of maintenance fees in patents should be directed to "Commissioner of Patents and Trademarks, Box M. Fee, Washington, D.C. 20231."

The current amounts of the maintenance fees due at 3 years and six months are set forth in 37 CFR 1.20(e) and (h), as amended effective Oct. 5, 1985, which are reproduced below:

37 CFR §1.20 Post-issuance fees

"(e) For maintaining an original or reissue patent, except a design or plant patent, based on an application filed on or after Dec. 12, 1980 and before Aug. 27, 1982, in force beyond 4 years; the fee is due by three years and six months after the original grant . . . $225.00"

"(h) For maintaining an original or reissue patent, except a design or plant patent, based on an application filed on or after Aug. 27, 1982, in force beyond 4 years; the fee is due by three years and six months after the original grant:

By a small entity (§1.9(f)) $225.00
By other than a small entity . . . . . $450.00"

The amounts of the surcharges as amended effective Oct. 5, 1985, are set forth in 37 CFR 1.20 (k) and (l) which are reproduced below:

"(k) Surcharge for paying a maintenance fee during the 6-month grace period following the expiration of three years and six months, seven years and six months, and eleven years and six months after the date of the original grant of a patent based on an application filed on or after Dec. 12, 1980 and before Aug. 27, 1982 . . . . . $110.00"

"(l) Surcharge for paying a maintenance fee during the 6-month grace period following the expiration of three years and six months, seven years and six months, and eleven years and six months after the date of the original grant of a patent based on an application filed on or after Aug. 27, 1982:

By a small entity (§1.9(f)) . . . . . $ 55.00
By other than a small entity . . . . . $110.00"

Section 1.20 paragraph (m) as amended as a result of enactment of Public Law 98–622 effective Nov. 8, 1984, is reproduced below:

"(m) Surcharge for accepting a maintenance fee after expiration of a patent for non-timely payment of a maintenance fee where the delay in payment is shown to the satisfaction of the Commissioner to have been unavoidable . . . . . $500.00"

Notice of Expiration of Patents Due to Failure to Pay Maintenance Fees

35 U.S.C. 41 and 37 CFR 1.362(g) provide that if the required maintenance fee and any applicable surcharge are not paid in a patent requiring such payment, the patent will expire at the end of the 4th, 8th, or 12th anniversary of the grant of the patent depending on the first maintenance fee which was not paid.

According to the records of the Office, the patents listed below have expired due to failure to pay the required maintenance fee and any applicable surcharge.

REISSUE APPLICATIONS FILED

Notice under 37 CFR 1.11(b). The reissue applications listed below are open to inspection by the general public in the indicated Examining Groups and copies may be obtained by paying the fee therefor (37 CFR 1.19(a)).

4,628,881, Re. S.N. 284,472, Filed Dec. 14, 1988, Cl. 123/447, PRESSURE CONTROLLED FUEL INJECTION FOR INTERNAL COMBUSTION ENGINES, Niels J. Beck, Owner of Record: *BKM Inc., San Diego, Calif.*, Attorney or Agent: Albert L. Gabriel, Ex. Gp.: 342

4,649,388, Re. S.N. 279,453, Filed Dec. 5, 1988, Cl. 342/26, RADAR DETECTION OF HAZARDOUS SMALL SCALE WEATHER DISTURBANCES, David Atlas, Owner of Record: *Inventor*, Attorney or Agent: William L. Gates, Ex. Gp.: 222

REQUESTS FOR REEXAMINATION FILED

Notice under 37 CFR 1.11(c). The requests for reexamination listed below are open to inspection by the general public in the indicated Examining Groups. Copies of the requests and related papers may be obtained by paying the fee therefor established in the Rules (37 CFR 1.19(a)).

In the event correspondence to the patent owner is not received, this notice will be considered to be constructive notice to the patent owner and reexamination will proceed (37 CFR 1.248(a)(5) and 1.525(b)).

3,860,003, Reexam. No. 90/001,673, Requested: Dec. 19, 1988, Cl. 128/287, CONTRACTABLE SIDE PORTIONS FOR DISPOSABLE DIAPER, Kenneth B. Barclay, Owner of Record: *Procter & Gamble Co., Cincinnati, Ohio*, Attorney or Agent: Frederick H. Braun, Ex. Gp.: 330, Requester: Francis Bouda, Cleveland, Ohio

4,230,830, Reexam. No. 90/001,672, Requested: Dec. 19, 1988, Cl. 525/222, ADHESIVE BLENDS CONTAINING THERMALLY GRAFTED ETHYLENE POLYMER, Stephen R. Tanny, et al., Owner of Record: *E. I. Du Pont de Nemours & Co., Inc., Wilmington, Del.*, Attorney or Agent: Elliott A. Katz, Ex. Gp.: 150, Requester: Owner

4,342,565, Reexam. No. 90/001,675, Requested: Dec. 12, 1988, Cl. 8/532, BRUSHED STRETCH DENIM FABRIC AND PROCESS THEREFOR, Edward W. Teague, et al., Owner of Record: *Burlington Ind., Inc., Greensboro, N.C.*, Attorney or Agent: Robert A. Vanderhye, Ex. Gp.: 150, Requester: Owner

4,464,223, Reexam. No. 90/001,674, Requested: Dec. 20, 1988, Cl. 156/643, PLASMA REACTOR APPARATUS AND METHOD, Georges J. Gorin, Owner of Record: *Tegal Corp., Petaluma, Calif.*, Attorney or Agent: Paul F. Wille, Ex. Gp.: 130, Requester: Owner

Adverse Decisions in Interference

In the designated interferences involving the following patents, final decisions have been rendered that the respective patentees are not entitled to patents containing the claims listed.

Patent No. 4,256,173, Yih-Wan Tsai and Robert H. Duffus, TWO REGENERATOR-FLUE SYSTEM FOR REGENERATIVE FURNACES, Interference No. 101,640, decided Aug. 9, 1988, claims 1-4.

Patent No. 4,298,372, K. Lawrence Stover, Alejandro G. Bueno, James W. Miller and Donald E. Shamp, COMBUSTION AIR FLOW CONTROL FOR REGENERATORS, Interference No. 101,640, decided Aug. 9, 1988, claims 1-8.

Patent No. 4,414,031, Josef Studinka and Peter E. Meier, FIBER-CONTAINING PRODUCTS MADE WITH HYDRAULIC BINDER AGENTS, Interference No. 101,498, decided July 12, 1988, claims 1-21.

Patent No. 4,415,706, William H. Stass, COMPATIBLE BLENDS OF POLYGLUTARIMIDES AND POLYAMIDES, Interference No. 101,348, decided Mar. 19, 1987, claims 1-21, 26 and 32.

Patent No. 4,437,865, Dhan N. Parekh and Paul R. Schweyen, FLEXIBLE BACKING MATERIAL FOR USE IN COATED ABRASIVES, Interference No. 101,951, decided Nov. 21, 1988, claims 1-21.

Patent No. 4,520,219, Haruhito Sato, PROCESS FOR THE PRODUCTION OF PSEUDOCUMENE OR DURENE, Interference No. 101,550, decided Sept. 26, 1988, claims 1-16.

Patent No. 4,551,388, James A. Schlademan, ACRYLIC HOT MELT PRESSURE SENSITIVE ADHESIVE COATED SHEET MATERIAL, Interference No. 101,578, decided Sept. 22, 1988, claims 1-4.

Patent No. 4,554,751, Carl T. Nicolosi, Thomas F. Nicolosi and Ryan D. McCreedy, MULTI-FUNCTION VEHICULAR GEAR SHIFT LEVER FOR SNOW-PLOW OPERATION, Interference No. 101,646, decided Oct. 25, 1988, claims 1-4.

Patent No. 4,588,257, Jack J. Maranto, SEPARABLE SPLICE FOR OPTIC FIBERS, Interference No. 101,975, decided Nov. 15, 1988, claims 1-7.

Patent No. 4,608,791, Richard R. McClure, SLOPE BUILD-UP SYSTEM FOR ROOFS, Interference No. 101,909, decided Dec. 8, 1988, claims 1-15.

Patent No. 4,618,616, Kenneth Richardson, Robert J. Bass, and Kelvin Cooper, CYCLOPROPYLIDENE ANTIFUNGAL AGENTS, Interference No. 101,841, decided Dec. 7, 1988, claims 1-10.

Patent No. 4,636,912, Yoshio Ohtani, CIRCUIT FOR CONTROLLING SOLENOID CLUTCH, Interference No. 101,905, decided Nov. 17, 1988, claims 1-9.

Patent No. 4,639,389, Masaharu Nishimatsu, Toshiaki Ide and Hiroyuki Arioka, MAGNETIC RECORDING MEDIUM, Interference No. 101,953, decided Dec. 2, 1988, claims 1-10.

Patent No. 4,674,970, Heikki I. Kankkunen, RAM CASTING MACHINE FOR CONCRETE SLABS, Interference No. 101,915, decided Nov. 23, 1988, claims 1-4.

Patent No. 4,674,971, Heikki I. Kankkunen, CONCRETE SLAB EXTRUDER WITH SHEAR-ACTION CORING MEMBERS, Interference No. 101,914, decided Nov. 23, 1988, claims 1-8.

Deputy Clerk,
Board of Patent Appeals and Interferences.

Reexamination Litigation Policy

This notice is intended to set forth the PTO's current policy and guidelines relating to reexamination practice when the patent undergoing reexamination has been or concurrently is involved in litigation. This policy results from the decision of the U.S. Court of Appeals for the Federal Circuit in *Ethicon* v. *Quigg* 849 F.2d 1142, 7 USPQ 2d 1152 (Fed. Cir. 1988). The Court's decision sets forth the principle that the "special dispatch" provision of the reexamination statute requires the PTO to continue its examination of claims in reexamination proceedings without stays even if there is court litigation involving allegations of invalidity of the patent under reexamination. More particularly, the Court held that the only circumstances under which the PTO may discontinue a reexamination are when a district court finds the claims under reexamination to be invalid and that decision is either upheld on appeal or not appealed, i.e., "final." Accordingly, the following policy and guidelines will be followed in order to implement the principles set forth in the *Ethicon* decision where reexamination and related litigation are present.

I. *Stay of Reexamination*

The Court held that the PTO's previous policy, set forth in 37 CFR §1.565(b) and MPEP 2286, of *staying* a reexamination proceeding when a trial on the merits *starts* in related litigation conflicts with the statutory requirement for "special dispatch." 35 U.S.C. §305. Accordingly, the previous policy of the Office of *sua sponte* staying a reexamination proceeding upon the start of the trial in related litigation has been rescinded. The reexamination will continue concurrently with the pending litigation notwithstanding the stage of the litigation.

II. *Issuance of Court Decision During Reexamination*

A *non-final* district court decision concerning a patent under reexamination shall have no binding effect on a reexamination proceeding.

The issuance of a *final* district court decision upholding validity during a reexamination also will have no binding effect on the examination of the reexamination. This is because the Court states in *Ethicon* that the PTO is *not* bound by a court's holding of patent *validity* and should continue the reexamination. The Court notes that district courts and the PTO use different standards of proof in determining invalidity and thus on the same evidence could quite correctly come to different conclusions. Specifically, invalidity in a district court must be shown by "clear and convincing" evidence, whereas in the PTO it is sufficient to show nonpatentability by a "preponderance" of evidence. Since the "clear and convincing" standard is harder to satisfy than the "preponderance standard," deference will ordinarily be accorded to the factual findings of the court where the evidence before the PTO and the court is the same. If sufficient reasons are present, claims held valid by the court may be rejected in reexamination.

On the other hand, the Court states that a *final* holding of *invalidity* is binding on the PTO and the reexamination may be discontinued. Upon the issuance of a holding of claim invalidity or unenforceability by a district court, reexamination of those claims will continue in the PTO until the court's decision becomes *final*. Upon the issuance of a *final* holding of invalidity or unenforceability, the claims held invalid or unenforceable will be withdrawn from consideration in the reexamination. The reexamination will continue as to any remaining claims. If all of the claims are *finally* held invalid or unenforceable, the reexamination will be vacated as no longer containing a substantial new question of patentability.

III. *Initial Determination of a Substantial New Question of Patentability*

When the initial question as to whether the prior art raises a substantial new question of patentability as to a patent claim is under consideration, the existence of a final court decision of claim *validity* in view of the same or different prior art does not necessarily mean that no new question is present, in view of the different standards of proof employed by the district courts and the PTO. Thus, while the PTO may accord deference to factual findings made by the court, the determination of whether a substantial new question of patentability exists will be made independently of the court's decision on validity as it is not controlling on the PTO. A *non-final* holding of claim *invalidity* or unenforceability will not be controlling on the question of whether a substantial new question of patentability is present. A *final* holding of claim *invalidity* or unenforceability, however, is controlling on the PTO. In such cases a substantial new question of patentability would *not* be present as to the claims held invalid or unenforceable.

Identification of Current Stays

The PTO is currently attempting to identify all reexamination proceedings which are currently stayed pursuant to concurrent litigation in order to lift the stays. To assist the PTO, the patent owner in any such stayed reexamination proceeding should alert the PTO of the stayed proceeding and request that the stay be lifted. Any third party requester may alert the PTO of a stayed proceeding in a notice of ligitation under 37 CFR 1.565(a).

Jan. 18, 1989.

DONALD J. QUIGG,
Assistant Secretary and Commissioner of Patents and Trademarks.

Reference Collections of U.S. Patents Available for Public Use in Patent Depository Libraries

The following libraries, designated as Patent Depository Libraries (PDLs), receive current issues of U.S. Patents and maintain collections of earlier-issued patents. The scope of these collections varies from library to library, ranging from patents of only recent years to all or most of the patents issued since 1790.

These patent collections, which are organized in patent number sequence, are available for use by the public free of charge. Each of the PDLs, in addition, offers supplemental reference publications of the U.S. Patent Classification System, including the *Manual of Classification, Index to the U.S. Patent Classification, Classification Definitions,* and provides technical staff assistance in their use to aid the public, in gaining effective access to information contained in patents. CASSIS (Classification And Search Support Information System), which provides direct, on-line access to Patent and Trademark Office data, is available at all PDLs. Facilities for making paper copies of patents from either microfilm or paper collections are generally provided for a fee.

Since there are variations in the scope of patent collec patents from either microfilm or paper collections are generallcontemplating use of the patents at a particular library is advised to contact that library, in advance, about its collection and hours in order to avert possible inconvenience.

Applications for the registration of marks in more than one class have been filed as provided in section 30 of said act as amended by Public Law 772, 87th Congress, approved Oct. 9, 1962, 76 Stat. 769. Opposition under section 13 may be filed within thirty days of the date of this publication. See rules 2.101 to 2.105.

A separate fee of two hundred dollars for opposing each mark in each class must accompany the opposition.

SECTION 1.—INTERNATIONAL CLASSIFICATION

The short titles associated below with the international class numbers are terms designed merely for quick identification and are not an official part of the international classification. The full names of international classes are given in section 6.1 of the trademark rules of practice.

The designation "U.S. Cl." appearing in this section refers to the U.S. class in effect prior to Sep. 1, 1973 rather than the international class which applies to applications filed on or after that date. For adoption of international classification see notice in the OFFICIAL GAZETTE of Jun. 26, 1973 (911 O.G. TM 210).

SECTION 2.—INTERNATIONAL CLASSIFICATION

The short titles associated below with the international class numbers are terms designed merely for quick identification and are not an official part of the international classification. The full names of international classes are given in section 6.1 of the trademark rules of practice.

The designation "U.S. Cl." appearing in this section refers to the U.S. class in effect prior to Sep. 1, 1973 rather than the international class which applies to applications filed on or after that date. For adoption of international classification see notice in the OFFICIAL GAZETTE of Jun. 26, 1973 (911 O.G. TM 210).

SECTION 1.—INTERNATIONAL CLASSIFICATION

The short titles associated below with the international class numbers are terms designed merely for quick identification and are not an official part of the international classification. The full names of international classes are given in section 6.1 of the trademark rules of practice.

The designation "U.S. Cl." appearing in this section refers to the U.S. class in effect prior to Sep. 1, 1973 rather than the international class which applies to applications filed on or after that date. For adoption of international classification see notice in the OFFICIAL GAZETTE of Jun. 26, 1973 (911 O.G. TM 210).

SECTION 2.—INTERNATIONAL CLASSIFICATION

The short titles associated below with the international class numbers are terms designed merely for quick identification and are not an official part of the international classification. The full names of international classes are given in section 6.1 of the trademark rules of practice.

The designation "U.S. Cl." appearing in this section refers to the U.S. class in effect prior to Sep. 1, 1973 rather than the international class which applies to applications filed on or after that date. For adoption of international classification see notice in the OFFICIAL GAZETTE of Jun. 26, 1973 (911 O.G. TM 210).

TRADEMARK REGISTRATIONS AMENDED, CORRECTED, ETC.

The designation "U.S. Cl." appearing in this section refers to the U.S. class in effect prior to Sep. 1, 1973 rather than the international class which applies to applications filed on or after that date. For adoption of international classification see notice in the OFFICIAL GAZETTE of Jun. 26, 1973 (911 O.G. TM 210).

Any change to the registration will be indicated at the bottom of each entry under ELEMENTS AMENDED, CORRECTED OR RESTRICTED. With the exception of changes to the goods and services, additions to the registration will appear in asterisks and deletions of the registration will appear in brackets. Elements which are only changed will be listed with no punctuation. As to the goods/service statement, amendments to the goods/services will appear in asterisks and deletions will appear in brackets. PATENT AND TRADEMARK OFFICE NOTICES

Patent Cooperation Treaty (PCT) Information

For information concerning the PCT member countries see the notice appearing in the *Official Gazette* at 1076 O.G. 3 on Mar. 3, 1987.

For use of the European Patent Office as a Searching Authority for PCT applications filed in the United States Receiving Office, see the notice appearing in the *Official Gazette* at 1022 O.G. 52 on Sept. 28, 1982.

For use of the European Patent Office as a Preliminary Examining Authority for PCT applications filed in the United States Receiving Office, see the notices appearing in the *Official Gazette* at 1080 O.G. 2 on July 7, 1987 and at 1091 O.G. 2 on June 7, 1988.

Certain domestic PCT fees for international applications have been changed effective Oct. 5, 1985 in the rule change notice titled "Revision of Patent Fees" published at 1057 O.G. 24 on Aug. 20, 1985.

The Search fee of the European Patent Office was changed due to a difference in the exchange rate of the U.S. dollar with regard to the German Mark as of Oct. 1, 1988, and was announced in the *Official Gazette* at 1094 O.G. 2 on Sept. 6, 1988.

Domestic PCT fees for Chapter II, effective July 1, 1987, were announced in the *Official Gazette* at 1079 O.G. 32 on June 16, 1987.

International PCT fees were changed on July 1, 1987 due to a difference in the exchange rate of the U.S. dollar with regard to the Swiss Franc and were announced in the *Official Gazette* at 1079 O.G. 50 on June 23, 1987.

International PCT Chapter II fees which were effective July 1, 1987, were announced in the *Official Gazette* at 1079 O.G. 50 on June 23, 1987. The elimination of multiple handling fees and the supplement to the handling fee under PCT Rule 57 was announced at 1085 O.G. 34 on Dec. 22, 1987.

The withdrawal of the Japanese declaration under PCT Article 64(2)(a), concerning the requirement for a Japanese translation of the international application within 20 months from the priority date when Japan is elected under PCT Chapter II, as from Dec. 8, 1987, was announced at 1085 O.G. 34 on Dec. 22, 1987.

The withdrawal of the Danish declaration under PCT Article 64 (1)(a), that Denmark shall not be bound by PCT Chapter II, as from Nov. 1, 1988, was announced at 1095 O.G. 2 on Oct. 4, 1988.

The withdrawal of the Norwegian declaration under PCT Article 64(1)(a), that Norway shall not be bound by PCT Chapter II, as from Jan. 1, 1989, was announced at 1096 O.G. 34 on Nov. 22, 1988.

National stage fees effective July 1, 1987, for entering the U.S. Patent and Trademark Office as a designated or elected Office were changed effective July 1, 1987, and were announced in the *Official Gazette* at 1079 O.G. 32 on June 16, 1987.

DONALD J. QUIGG,
Assistant Secretary and Commissioner of Patents and Trademarks.

Notice of Maintenance Fees Payable

Title 37, Code of Federal Regulations, Section 1.362(d), effective Nov. 1, 1984, provides that maintenance fees may be paid without surcharge for a six-month period beginning 3, 7, and 11 years after the date of issue of patents based on applications filed on or after Dec. 12, 1980. An additional six-month grace period is provided by 35 U.S.C. 41(b) and 37 CFR 1.362(e) for payment of the maintenance fee with the surcharge set forth in 37 CFR 1.20(k) or (l), as amended effective Oct. 5, 1985. If the maintenance fee is not paid in a patent requiring such payment the patent will expire on the 4th, 8th or 12th anniversary of the grant.

Attention is drawn to the patents which were issued on February 18, 1986 for which maintenance fees due at 3 years and six months may now be paid. The patents have patent numbers within the following ranges:

Utility Patents 4,570,266 through 4,571,740
Reissue Patents based on the above identified patents.

Attention is drawn to the patents which were issued on February 16, 1982 for which maintenance fees due at 7 years and six months may now be paid. The patents have patent numbers within the following ranges:

Utility Patents 4,315,334 through 4,316,285
Reissue Patents based on the above identified patents.

No maintenance fees are required for design or plant patents.

Payments of maintenance fees in patents should be directed to "Commissioner of Patents and Trademarks, Box M. Fee, Washington, D.C. 20231."

The current amounts of the maintenance fees due at 3 years and six months and 7 years and six months are set forth in 37 CFR 1.20(e), (f), (h) and (i), as amended effective Oct. 5, 1985, which are reproduced below:

37 CFR §1.20 Post-issuance fees

"(e) For maintaining an original or reissue patent, except a design or plant patent, based on an application filed on or after Dec. 12, 1980 and before Aug. 27, 1982, in force beyond 4 years; the fee is due by three years and six months after the original grant . . . $ 225.00"

"(h) For maintaining an original or reissue patent, except a design or plant patent, based on an application filed on or after Aug. 27, 1982, in force beyond 4 years; the fee is due by three years and six months after the original grant:

By a small entity (§1.9(f)) . . . . . $ 225.00
By other than a small entity . . . . . $ 450.00"

The amounts of the surcharges as amended effective Oct. 5, 1985, are set forth in 37 CFR 1.20 (k) and (l) which are reproduced below:

"(k) Surcharge for paying a maintenance fee during the 6-month grace period following the expiration of three years and six months, seven years and six months, and eleven years and six months after the date of the original grant of a patent based on an application filed on or after Dec. 12, 1980 and before Aug. 27, 1982 . . . . . $ 110.00"

"(l) Surcharge for paying a maintenance fee during the 6-month grace period following the expiration of three years and six months, seven years and six months, and eleven years and six months after the date of the original grant of a patent based on an application filed on or after Aug. 27, 1982:

By a small entity (§1.9(f)) . . . . . $ 55.00
By other than a small entity . . . . . $ 110.00"

Section 1.20 paragraph (m) as amended as a result of enactment of Public Law 98-622 effective Nov. 8, 1984, is reproduced below:

"(m) Surcharge for accepting a maintenance fee after expiration of a patent for non-timely payment of a maintenance fee where the delay in payment is shown to the satisfaction of the Commissioner to have been unavoidable . . . . . $ 500.00"

Notice of Expiration of Patents Due to Failure to Pay Maintenance Fees

35 U.S.C. 41 and 37 CFR 1.362(g) provide that if the required maintenance fee and any applicable surcharge are not paid in a patent requiring such payment, the patent will expire at the end of the 4th, 8th, or 12th anniversary of the grant of the patent depending on the first maintenance fee which was not paid.

According to the records of the Office, the patents listed below have expired due to failure to pay the required maintenance fee and any applicable surcharge.

Revised Ex Parte Appeal Requirements

New format and content requirements for appeal briefs in ex parte appeals are now in effect for cases where the notice of appeal was filed on or after Sept. 12, 1988. The new requirements were set forth in amended 37 CFR 1.192 which was published in the Official Gazette at 1092 O.G. 26 on July 12, 1988 and reprinted on Jan. 3, 1989 in the *Consolidated Listing of Official Gazette Notices* as item number 162. The changes are also set forth in chapter 1200 of the Manual of Patent Examining Procedure as revised in revision number 9, dated Sept. 1988.

Appellant's brief is required by 37 CFR 1.192(c) to contain, under appropriate headings, (1) the status of all the claims, (2) the status of any amendment filed subsequent to final rejection, (3) a summary of the invention, (4) a concise statement of the issues presented for review, (5) a statement that claims rejected under a rejection do not stand or fall together and the reasons why (if no statements is filed it will be presumed that the rejected claims stand or fall together), (6) the arguments of the appellant with respect to each issue presented for review, and (7) an appendix containing a copy of the claims involved in the appeal. The rule further sets out specific requirements for arguments against rejections based on 35 U.S.C. 102, 103, 112 and other grounds. The examiner's answer to the brief will follow a corresponding format.

Pursuant to 37 CFR 1.192(d), if a brief is filed which does not comply with the new requirements as set forth in paragraph (c) of the rule, the appellant will be notified of the reasons for non-compliance and provided with a period of one month within which to file an amended brief. The one-month period will not be extended. If appellant does not file a brief overcoming the reasons for non-compliance within the one-month period, the appeal will be dismissed.

The new requirements for the appeal brief will aid in the crystallization of the issues involved in the appeal. This will benefit the appellant and the examiner, as well as the Board of Patent Appeals and Interferences, in their consideration.

RENE D. TEGTMEYER,
Jan. 23, 1989. *Assistant Commissioner*
for Patents.
